[A Few More Back Injury Techniques \(short refresher\) \[E\]](#)

According to the National Safety Council and medical research, 70% of back problems result from degeneration of spinal discs; 20% of backaches are attributed to inflammation; 10% are due to actual back injuries and other miscellaneous causes.

Practicing safe lifting at home and work and having the right attitude about safety can be effective in preventing back injuries.

[A Practical Approach To Ladder Safety - French Interactive Online Training \[E\]](#)

This program discusses the basic precautions that will keep employees safe when using ladders. Viewers will also see the consequences of failing to follow these safe work practices.

[A Safety Carol - French Interactive Online Training \[E\]](#)

[Abrasive Blasting Interactive Training \[E,S\] \[2002\]](#)

[Abrasive Wheels Grinder Safety \(Gory\) Interactive Training \[E\] \[2011\]](#)

Abrasive wheels can be found in most maintenance shops and in some cases manufacturing. Persons who use this equipment must be well trained and attention to safety. Personal protective equipment should be worn when using the equipment. Injuries from grinders are lacerations or foreign body in nature. This course covers the safety requirements and specific hazards for this equipment.

[Absenteeism and Tardiness \[E\] \[2006\]](#)

[Accident Causes And Prevention \(Janitorial\) Interactive Video \[E\] \[2008\]](#)

Accident Causes and Prevention (Janitorial) Details

Accidents Causes and Prevention program is designed to help you have a better understanding of unsafe acts and how they contribute to accidents and injuries. There's a lot of discussion today about accidents and injuries. Why do they happen? What causes accidents and injuries? The answer can be found in statistics. The Insurance Industry, Governmental agencies, and the National Safety Council have analyzed employee accident investigations over the years and have determined that the overwhelming cause of most industrial accidents and injuries can be attributed to the unsafe acts of employees.

[Accident Investigation \(short refresher\) \[E\]](#)

[Accident Prevention and Countermeasures for Management \[E\]](#)

This course, developed in conjunction with the experts at the U.S. Department of Transportation's (DOT) Transportation Safety Institute (TSI), covers the Accident Preventability Evaluations portion of the Federal Motor Carrier Safety Administration (FMCSA) Accident Countermeasures Manual. Reduced accident rates translate into lower insurance costs, less lost time by drivers, lower repair costs, and safer highways for everyone. Establishing and employing a company standard for safe driving will help reduce accident rates.

[Accident Reporting - Supervisor's Guide Interactive \[E\] \[2008\]](#)

Accident Reporting - Supervisor's Guide Details

Accident investigation is an important part of a supervisor's responsibility and accident investigation. Accident investigation and reporting is a preventive effort. This program will concentrate on the importance of conducting a thorough investigation and why the information is necessary.

[Active Shooter: In The Workplace Interactive Online Training \[E,S\] \[2021\]](#)

All too often these days, we hear about active shooter incidents. Multiple shootings in nightspots, public areas... and workplaces. What should employees do to survive if one of these situations takes place where they work? Atlantic Training's products on Active Shooter: Surviving An Attack provide step-by-step explanations of the survival techniques that law enforcement agencies recommend to help people get through an active shooter incident safely.

[ADA: Americans with Disabilities Act Interactive Training \[E\] \[2020\]](#)

[Adult, Child, And Infant CPR And AED Online Training \[E\] \[2011\]](#)

This program provides information on the skills and techniques to save lives. This is a review on adult, child and infant CPR and obstructed airway. AED equipment will be shown how and when to use. This program will teach the key guidelines essential for saving the life of a person needing help.

[AED - Automated External Defibrillators Interactive \[E\] \[2012\]](#)

AED - Automated External Defibrillators Details

Most people who go into sudden cardiac arrest will still have some electrical activity of the heart. The sooner an AED is attached, the greater chance of survival. An arrhythmia is any change from the normal sequence of electrical impulses. When the heart is in ventricular fibrillation, it is fluttering and will not allow the blood to reach the brain. Irreversible brain damage can occur within 4 to 6 minutes. The national average EMS response time is about 10 to 12 minutes. This program focuses on the laws pertaining to AED and proper procedures when assisting a person in need.

[Aerial Lifts in Industrial and Construction Environments: Types of Lifts and Their Hazards Interactive Training \[E,S\] \[2022\]](#)

Whether you find yourself hanging siding on a construction site, changing light bulbs in a warehouse or performing outdoor utility work, aerial lifts can help you reach areas that would otherwise be almost impossible to get to. But before you work with an aerial lift, you need to know what types of lifts you will encounter and the hazards that are associated with each one.

[Aerial Lifts in Industrial and Construction Environments: Working With And Around a Lift Interactive Online Training \[E\] \[2022\]](#)

Before you begin work with an aerial lift, you need to know how to inspect it properly, set it up and operate it safely. This doesn't just help to keep you safe...it can make sure everyone on the ground stays safe as well. Falling objects, equipment "tipovers" and even electrocution hazards can make working near an aerial lift risky. Knowing how to operate a lift safely, and being aware of these hazards could save you and your co-workers from serious harm. Atlantic Training's course on "Aerial Lifts in Industrial and Construction Environments: Working With And Around a Lift" is the second of a two-part series that has been designed to meet OSHA's training requirements in their "Mobile Elevated Work Platforms" (MEWPs) standard. The course discusses how to inspect an aerial lift, how to prepare to use a lift, how to operate an aerial lift and how to work on the ground near a lift safely.

[Agriculture Series - Back Injury Prevention Interactive \[E\] \[2006\]](#)

Agriculture Series - Back Injury Prevention Details

Back Injury Prevention program explains how the back works including how strains and muscles work so back injuries can be prevented. According to the National Safety Council and medical research, 20% of backaches are attributed to inflammation such as arthritis, 10% are due to actual back injuries and other miscellaneous causes, 70% result from degeneration of spinal discs.

[Agriculture Series - Employee Safety Orientation Interactive Training \[E\] \[2009\]](#)

Agriculture Series - Employee Safety Orientation Details

Employee Safety Orientation - Today's short program is an overview of your safety responsibilities to help you perform your job safely. Safety is a responsibility that's important to you, the company, and your fellow employees. Accident and injury statistics compiled over the last 50 years reveal that the majority of all accidents are caused by the unsafe acts of employees such as taking short cuts, violating safety rules or job procedures.

[Airport And Aviation Security - Terrorism Prevention Interactive \[E\] \[2008\]](#)

Airport and Aviation Security - Terrorism Prevention Details

Computers and the Internet have revolutionized the way we do business. Along with this technology we are introduced to cyber crime and privacy issues. Hacking into computers is a cyber crime. The topic of this program is how individuals may commit criminal acts without realizing it; privacy will be discussed.

[Alcoholism in the Workplace \[E\]](#)

Alcoholism is a disease which threatens families, the workplace and society. It's important for supervisors and co-workers to recognize the warning signs of alcoholism. The work-place must be kept free of alcoholism.

[Americans With Disabilities Act \(ADA\) \[E\] \[2006\]](#)

The American Disabilities Act (ADA) was signed into law on July 26, 1990. The goal of ADA is to allow Americans with disabilities to lead productive lives by providing minor accommodations. It is designed as a federal anti-discrimination statute to make public and private entities accessible to people with disabilities.

[Anhydrous Ammonia Interactive Online Training \[E\] \[2008\]](#)

This is a safety training program about the hazards of Anhydrous Ammonia and safe response to incidents involving this dangerous gas. Anhydrous Ammonia, NH₃, is widely used in agriculture and industry. Penetrating vapors from this gas are suffocating and can lead to severe health problems, even death. This exciting program outlines an active program of safety and inspection to prevent accidents in the workplace and during emergency response.

[Arc Flash NFPA 70E Interactive training \[E,S\] \[2015\]](#)

Electricity is so common in our homes and workplaces that we normally don't think twice about using it. But electricity kills and injures thousands of people every year, so it's important to understand its hazards and know how to avoid them. Electricity poses two major hazards to people who work with it. The most intense is arc flash, a violent release of electrical energy that causes severe injuries and fatalities. The second is shock, which can cause burns, internal injuries, cardiac arrest and even be fatal. Atlantic Training's new training on Arc Flash focuses on what arc flash is, its hazards and how employees can avoid it on the job. The program provides practical procedures employees can use to protect themselves from electric shock, as well.

[Arc Flash: Facts and Prevention Interactive training \[E,S\] \[2019\]](#)

[Asbestos \(Construction\) Online Course \[E\]](#)

Construction workers engaged in construction work where asbestos-containing materials are present or are presumed to be present (ACM and PACM) face additional hazards on the job. To protect these workers, OSHA has extensive rules for this type of work, including rules for air monitoring, medical surveillance, respiratory protection, safe work practices, and more. These are designed to keep workers safe and free from asbestos-induced illnesses

[Asbestos Awareness Interactive Training \[E,S\] \[2004\]](#)

Atlantic's Asbestos Awareness video Program has been created specifically to educate employees about the dangers of working with materials that may contain asbestos.

[Asbestos Cement Pipe Safety \(Public Agency\) Interactive Training \[E\] \[2010\]](#)

Asbestos has been used for many products such as fireproofing, pipe insulation, theatre curtains, siding, roofing, gaskets and packing, water and sewer pipe. In water and waste water applications, asbestos cement pipe may contain as much as 20% asbestos or more. Asbestos is used as re-enforcement of the pipe. This program focuses on working safely with asbestos cement pipe.

[Avian Flu - General Industry Awareness \(Short Version\) \[E\]](#)

Avian Flu - General Industry Awareness (Short Version) program talks about health habits, working with birds, and much more. It's difficult to get people excited about preventing colds and the flu. Influenza is a different story, as is the Avian or Bird flu.

An influenza pandemic is a global outbreak of disease that occurs when a new influenza virus appears or 'emerges' in the human population, causes serious illness, and then spreads easily from person to person worldwide.

[Avian Flu Education for Prevention \(Long Version\) \[E\]](#)

Avian flu kills 55% of the people it infects. That makes it the most lethal flu we know of. The Avian flu started in Asia and birds like geese, swans, and ducks are the culprits. Medicines are not equipped at present to combat the pandemic. On-camera interviews with doctors share their knowledge of Avian flu.

[Avian Flu Education For Prevention Interactive \[E\] \[2006\]](#)

[Avian Flu Education For Prevention Details](#)

Avian Flu Education for Prevention (Long Version) program talks about health habits, working with birds, and much more.

[Back Injury Prevention \(Foundries\) Interactive \[E\] \[2006\]](#)

[Back Injury Prevention \(Foundries\) Details](#)

Back Injury Prevention (Foundries) program will explain how the back works so you'll have enough information to make the right choices on how to lift anything safely. According to the National Safety Council and medical research, 20% of backaches are attributed to inflammation such as arthritis, 10% are due to actual back injuries and other miscellaneous causes, 70% result from degeneration of spinal discs. That's right; aging of the spinal disc material causes the most trouble and can cause extreme pain even from routine body motions. We'll also discuss how strains and muscles work so you can prevent these types of back injuries also.

[Back Injury Prevention \(Hospitality\) Interactive \[E\] \[2009\]](#)

[Back Injury Prevention \(Hospitality\) Details](#)

According to the National Safety Council and medical research, 70% of back problems result from degeneration of spinal discs; 20% of backaches are attributed to inflammation; 10% are due to actual back injuries and other miscellaneous causes. Practicing safe lifting at home and work and having the right attitude about safety can be effective in preventing back injuries. This program explains how the back works. We discuss how strains and muscles work so back injuries can be prevented.

[Back Injury Prevention \(Restaurants\) Interactive \[E\] \[2006\]](#)

Back Injury Prevention (Restaurants) Details

According to the National Safety Council and medical research, 20% of backaches are attributed to inflammation such as arthritis, 10% are actual back injuries and 70% from degeneration of spinal discs. This program will explain how the back works to make the right choice on how to lift safely.

[Back Injury Prevention \(Retail\) Interactive \[E\] \[2009\]](#)

Back Injury Prevention (Retail) Details

Back Injury Prevention program explains how the back works so you'll have enough information to make the right choices on how to lift anything safely. According to the National Safety Council and medical research, 20% of backaches are attributed to inflammation such as arthritis, 10% are due to actual back injuries and other miscellaneous causes, and 70% result from degeneration of spinal discs. We'll also discuss how strains and muscles work so you can prevent these types of back injuries also.

[Back Injury Prevention \(Schools\) Interactive \[E\] \[2008\]](#)

Back Injury Prevention (Schools) Details

Back Injury Prevention - According to the National Safety Council and medical research, 20% of backaches are attributed to inflammation such as arthritis. 10% are due to actual back injuries and other miscellaneous causes. 70% result from degeneration of spinal discs. That's right; aging of the spinal disc material causes the most trouble and can cause extreme pain even from routine body motions. You've all heard the routine warnings about bending your knees and lifting with your legs. We see people lifting boxes to demonstrate the proper technique. Those techniques are still correct, but we don't always pick up a box or the item we want to lift is sitting under a storage rack or other difficult position. Today, we want to explain how the back works so you'll have enough information to make the right choices on how to lift anything safely.

[Back Injury Prevention \(Universities\) \[E\]](#)

Back Injury Prevention - Preventing back injuries is a very popular subject because back injuries continue to occur at an alarming rate. We discovered that very few safe lifting training programs actually reduced back injuries. We learned, without a doubt, each individual is absolutely the most important ingredient of any safe lifting program.

[Back Injury Prevention \(Waste Management\) Interactive \[E\] \[2008\]](#)

According to the National Safety Council and medical research, 70% of back problems result from degeneration of spinal discs; 20% of backaches are attributed to inflammation; 10% are due to actual back injuries and other miscellaneous causes. Practicing safe lifting at home and work and having the right attitude about safety can be effective in preventing back injuries. This program explains how the back works. We discuss how strains and muscles work so back injuries can be prevented.

[Back Injury Prevention Interactive Online \[E,S\] \[2009\]](#)

Back Injury Prevention Details

According to the National Safety Council and medical research, 70% of back problems result from degeneration of spinal discs; 20% of backaches are attributed to inflammation; 10% are due to actual back injuries and other miscellaneous causes. Practicing safe lifting at home and work and having the right attitude about safety can be effective in preventing back injuries. We discuss how strains and muscles work so back injuries can be prevented.

[Back Injury Prevention Through Exercise \(Schools\) \[E\]](#)

[Back Injury Responsibility Streaming Interactive \[E\] \[2005\]](#)

Back Injury Responsibility Details

This program is designed to help you understand the physical make up of the back. Experts Joe Higgins and Richard Hernandez offer their expertise on appropriate lifting techniques.

[Back Safety Basics Interactive Online Training \[E,S\] \[2020\]](#)

[Back Safety in Construction Environments Interactive Online Training \[E\] \[2022\]](#)

More than one million back injuries occur in the construction industry every year. These injuries not only cause employees significant pain, but also result in days missed from work, lost wages and lost productivity. But back injuries can be avoided.

Atlantic Training's course on "Back Safety in Construction Environments" discusses situations that can lead to back injuries and what employees can do to avoid them both at work and at home.

[Back Safety in Food Processing and Handling Environments Interactive Online Training \[E\] \[2022\]](#)

More than one million back injuries occur in the food industry every year. These injuries not only cause employees significant pain, but also result in days missed from work and lost wages. But back injuries can be avoided.

Atlantic Training's course on "Back Safety in Food Process and Handling Environments" discusses situations that can lead to back injuries and what employees can do to avoid them both at work and at home.

[Back Safety in Healthcare Environments: for Medical Personnel Interactive Online Training \[E\] \[2022\]](#)

More than one million back injuries occur in the healthcare industry every year. These injuries not only cause employees significant pain, but also result in days missed from work, lost wages and lost productivity. But back injuries can be avoided.

[Back Safety in Healthcare Environments: for Office and Maintenance Personnel Interactive Online Training \[E\] \[2022\]](#)

Atlantic Training's course on "Back Safety in Healthcare Environments: for Office and Maintenance Personnel" discusses situations that can lead to back injuries and what employees can do to avoid them... both at work and at home.

[Back Safety in Industrial Environments Interactive Training \[E,S\] \[2022\]](#)

Atlantic's Back Safety Video Program emphasizes the importance of overall back care, both at work and at home, including exercises and weight control.

[Back Safety in Office Environments Interactive Training \[E,S\] \[2022\]](#)

Atlantic's training products on "Back Safety in office environments" discuss situations that can lead to back injuries and what employees can do to avoid them... both at work and at home.

[Back Safety in Transportation and Warehouse Environments Interactive Online \[E\] \[2022\]](#)

Atlantic Training's course on "Back Safety in Transportation and Warehouse Environments" discusses situations that can lead to back injuries and what employees can do to avoid them... both at work and at home.

[Back Safety Interactive Online Training \[E\] \[2022\]](#)

Atlantic Training's course on "Back Safety" discusses situations that can lead to back injuries and what employees can do to avoid them... both at work and at home.

[Backhoe/Loader Operations Online Training \[E\] \[2012\]](#)

Backhoes are one of the most common types of construction equipment. Backhoe loaders can dig, scrape and load material. With special attachments they can perform any required task. Only trained and authorized persons should operate a backhoe. Personal protective equipment must be worn when operating a backhoe. Backhoe loaders are complicated machines. It is important to know the equipment's capabilities. This program covers the maintenance and operation of a backhoe with emphasis on safety.

[Basic Electrical Safety In the Workplace Online Training \[E\] \[2009\]](#)

Basic Electrical Safety in the Workplace program gives a basic understanding of electricity. There are different types of electricity or electrical energy; low voltage, high voltage, static electricity, alternating current, direct current, and so on. This program is designed to make you more aware of electrical safety. It's important to understand how electricity works and preventing shocks.

[Basic Electrical Safety Interactive Training \[E,S\] \[2019\]](#)

This video explains the basics of electrical safety in an easy to understand manner. A great program for new employees or experienced employees in need of refresher training.

[Best Practices for CMV Drivers: Right-of-Way and Intersections \[E\]](#)

This "best practices" course covers one topic included in the Safe Driving Practices for CMV Drivers course: Right-of-Way and Intersections.

[Blink: And You Could Lose Your Hand - French Interactive Online Training \[E\]](#)

[BLOODBORNE PATHOGENS \(Construction\) \[E\] \[2008\]](#)

Great strides have been made in promoting knowledge about bloodborne pathogens. Training programs are designed to educate and provide awareness of the protective measures used to avoid exposure to bloodborne pathogens. This program provides information about bloodborne pathogens and related diseases. Proper methods of infection and exposure control to avoid the risk of contamination of potentially infectious materials are addressed.

[Bloodborne Pathogens for Non-Healthcare Workers \[E\] \[2008\]](#)

Bloodborne Pathogens for Non-Healthcare Workers is the focus of this program. In today's environment of health issues, communicable diseases, and other health related topics, it's important to understand some of the potential hazards we all have on a daily basis. These potential hazards exist at work, home, and everywhere you go, so you need to know to protect yourself from these hazards.

This program concentrates on the risks of bloodborne pathogens and the precautions necessary.

[Bloodborne Pathogens General Awareness Online Interactive Training \[E\]](#)

Bloodborne pathogens are dangerous micro-organisms that can cause disease in humans. These micro-organisms are carried in the blood stream and other bodily fluids. This training provides general awareness training for all employees on the dangers of bloodborne pathogens, how to protect yourself from them and ways to minimize the risk of transmission

[Bloodborne Pathogens In Healthcare \[E\] \[2009\]](#)

(BBP) When a safety committee is properly formed, supported and budgeted they can be invaluable to the safety program. It's important to understand the reasons why safety committees fall or die a slow death.

This program covers the assignments and responsibilities of the safety committee members.

[Bloodborne Pathogens in Healthcare Settings Interactive Online Training \[E,S\] \[2022\]](#)

Whether in routine procedures or emergencies, you are exposed to patients as you assist in or perform their care. Your job may involve transporting materials used to provide care – such as sheets, or vials of bodily fluid – or you may be a direct provider who comes into contact with patients' bodies regularly. Many routine medical tasks – and certainly emergency response scenarios – bring with them a risk for exposure to bloodborne pathogens. As a healthcare worker, your risk for exposure to these bloodborne pathogens is well above the norm. In this training, you will learn more about your risk and how to minimize that risk. We will also explore the role and responsibilities employers play, and what to do in the event of exposure.

[Bloodborne Pathogens in Universities Interactive \[E\]](#)

Bloodborne pathogens training is required if you can reasonably anticipate facing contact with blood and/or other potentially infectious materials. All health care facilities require bloodborne pathogens and exposure plans, but there are a wide range of other facilities including industrial nurses, first aid providers and emergency responders who may come in contact with blood or potentially infectious materials. This program is designed to provide a good understanding of bloodborne pathogens, common modes of their transmission and methods of prevention.

[Bloodborne Pathogens Interactive Training \[E\]](#)

If you have experience in the healthcare field, you know the dangers of BBP and how they are contracted. This program is devoted to making you aware of prevention techniques and compliance with BBP Safety Standards. This program is devoted to making you aware of prevention techniques and compliance with BBP Safety Standards.

[Bloodborne Pathogens Refresher Interactive Training \[E\] \[2012\]](#)

Accidents can happen anywhere. We should be prepared to assist in an emergency but take precautions to protect ourselves from potential hazards such as bloodborne pathogens. Persons working in the healthcare field and rescue operations are at risk for being exposed to these hazards. Wearing personal protective equipment will reduce these hazards.

This program focuses on the potential hazards of bloodborne pathogens and the precautions to take in protecting yourself.

[Bloodborne Pathogens Restaurants Online Interactive Training \[E\]](#)

In today's environment of health issues, communicable diseases and other health-related topics, it is important to understand some of the potential hazards we come in contact with on a daily basis. It is important for non-health care workers to be made aware of the possibility of hazards when coming in contact with bloodborne pathogens. This program will discuss the types of diseases and how to protect yourself in a safe manner if exposed.

[Bloodborne Pathogens: General Industry Interactive Training \[E,S\] \[2008\]](#)

Great strides have been made in promoting knowledge about bloodborne pathogens. Training programs are designed to educate and provide awareness of the protective measures used to avoid exposure to bloodborne pathogens.

This program provides information about bloodborne pathogens and related diseases. Proper methods of infection and exposure control to avoid the risk of contamination of potentially infectious materials are addressed.

[Bloodborne Pathogens: Standard Precautions in the Workplace Interactive Online Training \[E,S\] \[2021\]](#)

OSHA defines bloodborne pathogens as infectious "microorganisms that are present in human blood and can cause disease in humans." These potentially life-threatening pathogens include, but are not limited to:

The Hepatitis B virus (HBV)

Hepatitis C virus (HCV)

Human immunodeficiency virus (HIV)

Both Hepatitis B and C affect the liver and can cause illnesses that last a few weeks. However, 15% of Hep B and more than 50% of Hep C infections lead to potentially fatal conditions, such as cirrhosis or liver cancer. HIV attacks the body's immune system and destroys disease-fighting cells. It can cause the disease known as AIDS, for which there is no cure.

[Bomb Threat Procedures Online Training \[E\] \[2007\]](#)

Bomb Threat Procedures program is only a guide in knowing what to do if there is a bomb threat. Bombing and the threat of being bombed are harsh realities in today's world. The public is becoming more aware of those incidents of violence and the potential for destruction and physical harm. Law enforcement is charged with the responsibility of protecting life and property, but law enforcement alone will not do the job. It's up to each and everyone to do their part. Training and awareness will go a long way toward making your homes and workplaces safer and more secure environments.

[Breathe Safely: The Proper Use Of Respiratory Protection Interactive Online Training \[E\] \[2018\]](#)

Exposure to the gases, dusts, mists, and fumes of hazardous chemicals can cause lung damage, cancer, and other serious conditions of the respiratory and central nervous systems as well as other organs. Your organization has implemented a written respiratory protection program to protect workers from the adverse health effects of airborne contaminants while performing your job.

The purpose of this program is to provide employees with an understanding of the respiratory hazards they may encounter in their work areas and how to use the proper respiratory protection to prevent exposures to such hazards.

[Brian's Story: You Can Make A Difference Interactive Training \[E,S\] \[2008\]](#)

Jeff Bell received the phone call that every parent fears. His son Brian, a young man full of potential and promise, had been killed on the job. In this powerful presentation, Jeff Bell introduces his son Brian and takes the audience step by step through the events leading to his death.

[Bucket Safety Interactive Training Video \[E,S\]](#)

Bucket Truck Safety Bucket program focuses on safe operation of the bucket truck. The Bucket Truck is also known as aerial lift trucks have been used in just about every industry for many years. Not only are they effective, but they are also highly flexible in the numerous jobs they can safely perform. As useful as this equipment is, each type can contain its own inherent risks and hazards. The most common are falls and electrocution. Serious injuries and deaths have occurred in construction, mining, tree trimming, public works, and fire fighting to name a few.

[Bus Person, Dishwashers, and Janitor Online Interactive Training \[E\]](#)

This program will provide useful information so you can make the proper safety decisions when working with hazardous materials

[C. HARLEY "How Far Can You Fly?" WEAR YOUR SEAT BELTS Interactive Training \[E\] \[2006\]](#)

Each year, 40,000 people die in car accidents. This is the leading cause of death for persons under age 35. If seat belts were worn, about one-half of this number could have been saved. Rear-facing car seats for children provide significant safety advantages in frontal and side impacts.

This program exams what happens in a car crash and reasons why seat belts can help prevent deaths.

[CAL OSHA New Laws On Serious Injuries Interactive Training \[E\] \[2011\]](#)

Federal OSHA has been critical of California due to being lax on "serious" violations associated with inspections and investigations. The Federal government wants California to significantly increase penalties especially those classified as serious. In order to address these concerns, California State Assembly Bill 2774 was adopted on January 1, 2011.

This program reviews the meaning of the new law AB2774, legal issues, mitigating serious hazards, and how employers can prepare for the changes.

[CAL-OSHA New Laws On Serious Injuries \(HR & Workers Comp.\) Interactive Online Training \[E\] \[2011\]](#)

[California Sexual Harassment for Managers and Supervisors Interactive Training \(Online\) \[E\] \[2018\]](#)

Now more than ever, employers want to educate their workers regarding sexual harassment and how to prevent it in their workplace. In the State of California, managers are also coping with updated harassment laws that now specifically address the rights of transgender individuals.

The SCORM course provides quizzing and interactivity and is compliant with the minimum 2-hour training requirement mandated by the State of California. AB1825

[Campus Emergency Preparedness Interactive Training \[E\]](#)

Concern and commitment for the safety and health of all University employees is a high priority. Throughout the world, there are disasters of many types such as hurricanes, floods, bombs, toxic chemical releases, radioactive releases, fires, tornados, earthquakes and other disasters. One of the most important considerations in surviving any type of disaster is preparing for the emergency.

This program is designed to help you plan for just such an emergency.

[Casino Safety Basics Interactive Training \[E\] \[2006\]](#)

[Caught-In/Between Hazards in Construction Environments Interactive Training \[E,S\] \[2017\]](#)

Caught-in/between accidents occur when a person is squeezed, caught, crushed, pinched or compressed between two or more objects. They are one of the four top causes of fatalities in construction work, and can result in serious injuries as well. Atlantic Training's training products on Caught-In/Between Hazards in Construction Environments provide the information employees need to recognize the caught-in/between hazards that are associated with construction tasks and avoid them before accidents happen.

[Cell Phone Hands Free Driving Awareness Interactive Training \[E,S\] \[2020\]](#)

[Cell Phones In The Workplace: A Dangerous Distraction Interactive Training \[E,S\] \[2011\]](#)

Our cell phones are powerful tools that allow us to have instant access to information and communication. When used appropriately, these devices can make our lives easier and more enjoyable, but when used at the wrong time and in the wrong manner, these same devices can get us in trouble at work and cause serious injury.

[Chains, Cranes, Hoist, And Slings Interactive Training \[E\] \[2009\]](#)

Chains, Cranes, Hoist, and Slings program illustrates the proper use and maintenance of cranes and lifting devices with emphasis on safety. Safety around hoisting equipment is extremely important because one little mistake can be disastrous. Damaged or worn out parts also make your equipment unsafe to use. Daily inspection of equipment is necessary.

[Chainsaw Safety Interactive Training \[E\] \[2010\]](#)

The chainsaw ranks as one of the most dangerous tools found in the industry and home. The manufacturer provides safety and operating instructions on their equipment. This program includes safety tips and the hazards of this equipment. Most chainsaw accidents are a result of lack of proper training and unsafe acts by the operator. Safety in chainsaw operations is critical.

[Chemical and Biological Threat - Emergency Preparedness \[E\]](#)

This program covers the basic aspects of chemical and biological threats, what they are and what we can do to protect ourselves.

This program examines the chemical and biological terrorism threat and how businesses and individuals can respond. Chris Troesh, Chemical Expert, is on camera in this program.

[Chemical Dependency and What To Do About It \[E\] \[2003\]](#)

This program focuses on the supervisor's responsibilities on handling chemical dependency employees. There are on-camera interviews by Theodore Holcombe, Service Director, Brad Davis, Narcotics Detective, Rolfe Floyd, VP of Operations, and Howard who is a drug user who share their experiences on this subject.

[Chemical Dependency Interactive Training \[E\] \[2006\]](#)

This program focuses on the supervisor's responsibilities on handling chemical dependency employees. There are on-camera interviews by Theodore Holcombe, Service Director, Brad Davis, Narcotics Detective, Rolfe Floyd, VP of Operations, and Howard who is a drug user who share their experiences on this subject.

[Chemical Exposure Disaster Exercise Interactive Training \[E\] \[2008\]](#)

Chemical Exposure Disaster Exercise Details

Chemical Exposure Disaster Exercise program reviews a typical chemical exposure drill, giving typical medical staff and military personnel an idea of what to expect in case of a chemical exposure scenario.

[Chemical Hygiene and Engineering Interactive Training Program \[E\] \[2009\]](#)

An integral part of your university's Laboratory Safety Program is the Chemical Hygiene Plan. This plan is designed to protect you from chemical and physical hazards present in your instructional and research laboratories. A component of this plan is engineering controls. Engineering controls eliminate or reduce exposure to chemical or physical hazards through the use or substitution of engineered machinery or equipment.

[Chemical Safety Online Training \[E\] \[2005\]](#)

Chemicals can improve our lives, if we do not understand them, they can be harmful. The information about a chemical is on the label. It is important to be informed and aware of chemicals and chemical safety. This program is designed to help the viewer understand more about chemicals and chemical safety.

[Chlorine Safety Interactive Online Training \[E\]](#)

[Choices: Safe Driving interactive Training \[E,S\] \[2014\]](#)

[Citizen Homeland Security Streaming Interactive Training \[E\] \[2008\]](#)

Citizen Homeland Security Details

Terrorism is the use of force or violence against persons or property in violation of criminal laws. These acts of terrorism range from threats of terrorism, assassinations, kidnappings, hijackings, bomb scares and bombing, cyber attacks, and the use of chemical, biological and nuclear weapons. This program will provide information on terrorism and how to be prepared for these emergencies.

[Cleaning and Sanitizing In A Food/Pharmaceutical Processing Facility Interactive Training \[E\] \[2007\]](#)

Cleaning and Sanitizing in a Food/Pharmaceutical Processing Facility program will concentrate on cleaning and sanitizing of process equipment. It's extremely important to understand basic cleaning and sanitizing procedures and to use these procedures when cleaning equipment used in a food or pharmaceutical manufacturing process. Lack of proper sanitation can cause increased returns of products, shorter shelf life, less profit, and can invite the threat of possible operation shutdown.

[Cleaning and Sanitizing in Food Processing and Handling Environments Part I: Cleaning Interactive Online Training \[E\] \[2023\]](#)

Exposure to harmful microorganisms, such as bacteria, spores, fungi and viruses, can contaminate food products during the manufacturing process. And if customers eat this contaminated food, it can result in what are known as "foodborne illnesses". But if employees follow the proper cleaning procedures, it can help to eliminate these microorganisms.

[Cleaning and Sanitizing in Food Processing and Handling Environments Part II: Sanitizing Interactive Online Training \[E\] \[2023\]](#)

In food processing and handling facilities, it is vitally important to keep food products free from harmful microorganisms, such as bacteria, mold, spores and viruses. These can all contaminate food products... and potentially cause an outbreak of foodborne illnesses.

While "cleaning" is an important first step in protecting food products from contamination, "sanitizing" is what really rids surfaces and equipment of harmful microorganisms. And that is what makes food safe for customers to eat.

[Cold Stress: Working Safely in Cold Weather \[E\]](#)

Anyone who works outside on a regular basis knows, at some point or another, you're going to experience cold and wet weather conditions. These working conditions can threaten your ability to do your job safely, as cold can have negative effects on the body. This is known as "cold stress."

[Combustible Dust Can Explode Interactive Online Training \[E\] \[2011\]](#)

Combustible Dust Can Explode Details

Pneumatic conveying equipment and dust control exhaust systems that transport combustible particulate solids need to be protected from fire and dust explosions. If combustible particulate solids are thrown into the workplace air during cleaning or by excessive drafts in the plant, the resulting combustible dust can present a fire hazard if exposed to an ignition source. The program reviews the NFPA standards for combustible dust, problems and solutions.

[Commercial Driver's License \(CDL\) for Drivers \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), covers the regulations in part 383 of the Federal Motor Carrier Safety Regulations (FMCSR): Commercial Driver's License (CDL). This course outlines the minimum regulatory requirements for obtaining and maintaining a CDL. It focuses on information the driver needs to know to comply with the regulations.

[Commercial Driver's License \(CDL\) for Management Online Course \[E\]](#)

This course, developed in conjunction with the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), covers the regulations in part 383 of the Federal Motor Carrier Safety Regulations (FMCSR): Commercial Driver's License (CDL). This course outlines the minimum regulatory requirements for obtaining and maintaining a CDL.

[Commercial Mower Safety \(Public Agency\) Interactive Online Training \[E\] \[2005\]](#)

Commercial Mower Safety (Public Agency) Details

The same caution should be exercised in driving a commercial mower as an automobile. Mowers are a great labor-saving device and are safe to use. Most safe operating rules and instructions apply to a riding mower or a walk-behind mower. Always follow the "Operator's Manual" for safe operation. This program focuses on the safety features of this equipment, maintenance and accident prevention tips.

[Competent Person - Trenching and Shoring Interactive Online Training \[E\] \[2012\]](#)

Competent Person - Trenching and Shoring Details

Based on the National Institute for Occupational Safety and Health (NIOSH), an average of 60 workers die in cave-ins annually. According to NIOSH, these events are not accidents; cave-ins are predictable and preventable. Fatalities are caused by an absence of trench protection, lack of knowledge and poor judgment. When working in trenches and excavation, there is no room for risk-taking. The lives of co-workers depend on the skill and knowledge of the competent person. This program focuses on the safety training of the competent person.

[Compressed Air Safety - French Interactive Online Training \[E\]](#)

[Compressed Gas Cylinders Interactive Training \[E,S\] \[2004\]](#)

Atlantic's Compressed Gas Cylinders video Program provides the information employees need to handle and transport these potentially volatile storage containers.

[Computer Workstation Safety Interactive Training \[E,S\] \[2021\]](#)

Atlantic Training's Computer Workstation Safety video Program reviews the safe use of computers and offers practical solutions to many potential problems.

[Concrete and Masonry Construction Online Course \[E\]](#)

The Occupational Safety and Health Administration (OSHA) designs and enforces standards to assure a safe work environment for America's workers. Because workers involved in concrete and masonry construction face specific hazards, OSHA has developed standards to address and help minimize those hazards.

This course covers the OSHA regulations for employees involved in concrete and masonry construction.

[Confined Space Entry \(Construction\) Online Training \[E\] \[2009\]](#)

Confined Space Entry (Construction) Details

Confined space entry must be approached with a professional attitude and a methodical system designed to prevent situations from escalating into a disaster. The National Institute for Occupational Safety & Health (NIOSH) found that in more than 50% of confined space accidents, the rescuer becomes the victim. NIOSH also found that very few organizations provided written procedures. Failure to closely follow specific rules, regulations and confined space safety standards can guarantee serious injury or even death. This program is designed to provide the viewer with safety basics in confined space entry.

[Confined Space Entry Interactive Online Training \[E,S\] \[2019\]](#)

[Confined Spaces: Acceptable Entry Conditions Interactive Online Training \[E,S\] \[2022\]](#)

Atlantic Training's "Confined Space Entry" training program provides employees with the information they need to stay safe in Permit Spaces and helps employers stay in compliance with OSHA requirements... whether they are doing general industry or construction type work.

[Conflict Resolution in Industrial Facilities Interactive Training \[E,S\] \[2019\]](#)

Atlantic's Conflict Resolution in Industrial Facilities video Program discusses the techniques and strategies that can be used to limit the damage and disruption conflict can sometimes cause in the workplace.

[Conflict Resolution in the Office Interactive Training \[E,S\] \[2019\]](#)

Atlantic's Conflict Resolution in the Office video Program discusses the techniques and strategies that can be used to limit the damage and disruption conflict can sometimes cause in the workplace.

[Consequences of Driving A Motor Vehicle Under The Influence \(Trucking\) Online Interactive Training \[E\] \[2005\]](#)

Consequences of Driving a Motor Vehicle under the Influence program talks about the hazard of drinking and driving. Manslaughter charges, murder charges, felony convictions, deaths, injuries, court costs, license revoked or suspended, attorney fees, public service, rehabilitation and of course, the police record that goes with the arrest and conviction.

[Construction Safety Struck-by and Caught-In or Between Hazards Online Course \[E\]](#)

OSHA has found that a large number of fatalities in the Construction industry can be tied to struck-by and caught-in or caught-between incidents. Because of the injury and fatality rate associated with these types of incidents, it is extremely important for workers to be aware of potential workplace hazards. This course provides information on struck-by hazards, including vehicles and cranes, falling or flying objects, and masonry walls. It also includes information on these caught-in and caught-between hazards: trenching, unguarded machinery, and equipment.

[Construction Series Ladder Online Training \[E\] \[2016\]](#)

Each year, thousands of people are injured by falling off ladders. Never stand on a chair or other make shift step stool. Always use the proper device for the job.

[Controlling Exposure To Bloodborne Pathogens Interactive Training \[E\] \[2007\]](#)

Controlling Exposure To Bloodborne Pathogens (VI) Details

Controlling Exposure to Bloodborne Pathogens explains new methods of infection control to prevent the occupational spread of HIV and Hepatitis B viruses, both leading to very serious diseases. With concern for you, your employer has elected to use this training video as an overview of this vitally important subject. Should you have any questions or if subjects or techniques are confusing, then you will have the opportunity of discussing your concerns and questions with a representative at the end of the program.

[Controlling Exposures To Bloodborne Pathogens \(Manufacturing\) Online Training \[E\] \[2010\]](#)

Controlling Exposure to Bloodborne Pathogens for workers in manufacturing industry is the focus of this program. Bloodborne Pathogens and infectious diseases, treatment, and infection control prevented widespread incidences. The 1980s brought new conditions that were spread in alarming proportions to personnel having other than direct contact with an exposed person. Last year, several thousand workers died from Hepatitis B. New methods of infection control were established to prevent the occupational spread of AIDS and Hepatitis B virus, both very serious diseases.

[Convenience/Supermarket Store Safety Interactive Training \[E\] \[2008\]](#)

Safety is an important part of your job responsibilities. Safety doesn't have to be a burden. Safety is taking time to think, work, and act safely. Everyone assumes there are no safety hazards in a retail store. No matter where you work there are always potential hazards.

The objective in the program is to make you aware of hazards so you can take action to prevent them from becoming accidents and injuries.

[Conveyor Safety In The Workplace - French Interactive Online Training \[E\]](#)

This video discusses the various hazards posed by conveyor systems and the safe work practices that employees must follow to prevent injuries related to these hazards.

[Coronavirus: Guarding Against COVID-19 \[E,S\] \[2021\]](#)

As you may have heard in the news recently, the Biden administration has introduced new mandates on COVID vaccines. In an effort to keep everyone informed on this crucial topic, we have updated our "Coronavirus: Guarding Against COVID-19" course to reflect these new developments. The "Coronavirus: Guarding Against COVID-19" course provides employees with the latest information about this serious disease, vaccinations, and recent Federal mandates and gives them the information they need to keep themselves and their loved ones safe.

Millions of people in the U.S. have contracted the Coronavirus. Hundreds of thousands have died, and thousands of others are experiencing negative long-term health effects from the virus. As we continue to learn more about the virus, it is essential to share this information with employees.

[Countering Terrorism Interactive Online Training \[E\] \[2013\]](#)

Security officers must be alert to terrorist threats. If a terrorist incident occurs at a facility, security officers are likely to be first on the scene to observe the situation. They themselves could become victims of the attack.

[Countermeasures On Water Interactive Training \[E\] \[2002\]](#)

The program studies the factors that challenge responders to address water spills, including weather, wind, sea conditions, and currents.

[COVID-19 in Healthcare Environments \(OSHA's Emergency Temporary Standard\) Online Interactive Training \[E\] \[2021\]](#)

Although the Coronavirus surfaced in the U.S. in early 2020, it feels like we've been living with it forever, in our workplaces, homes and communities as well as in the media and on the internet. Millions of people in the U.S. have contracted the virus. Hundreds of thousands have died. And thousands of others are experiencing long-term health effects from the virus.

[CPR 2000 Online interactive Training \[E\] \[2005\]](#)

As a baby grows through childhood and adolescence, the healthy base provided as an embryo will become crucial to the process of good choices. We can help each generation to be healthier than the one before. A clear understanding of the risk factors associated with heart and brain attacks will determine a path to a healthier lifestyle. CPR has been credited with helping save lives. It is best to attend a credited CPR program presented by a recognized instructor. With the arrival of defibrillators, the general public, in addition to police, firefighters and emergency medical personnel, will be able to assist victims of a heart attack. This program covers CPR procedures for infants, children and adults.

[Crane Safety \(Construction\) Online Course \[E\]](#)

Cranes are very commonly used in the construction industry. Unfortunately, in addition to their usefulness, they can pose a significant hazard for workers if they are not used properly and inspection requirements are not followed.

In this course, you will learn crane safety requirements, including inspections, the use of suspended personnel platforms, the requirements for crane operators, and recognizing and avoiding common hazards.

Note: This course includes the regulatory changes that are effective November 8, 2010.

[Critical Incident Stress Debriefing \(Emergency Preparedness\) Interactive Training \[E\]](#)

Critical Incident Stress Debriefing (Emergency Preparedness) Details

Workplace violence, disasters, terrorism, suicides, major accidents, and other incidents at work reveal the need for more information and action relating to CISD. This program will help you recognize the importance of having a program that provides debriefings, how to make best use of these services, when to call, and dealing more effectively with critical incidents when they occur.

[Cryogenics and Compressed Gas Safety Interactive Training \[E\]](#)

Cryogenics and compressed gas safety is a critical part of any university's safety program. Almost 200 different types of gases can be contained in gas cylinders. Cryogenic gases are liquefied gases that are kept in their liquid state at very low temperatures and high pressures.

[Customer Service Interactive Training \[E\]](#)

Customer Service program illustrates good and bad customer service. Safety in a retail environment is an important part of your job responsibilities and should be accepted as a routine part of your work. Customers want to shop and buy merchandise in retail establishments where they are treated with courtesy, respect, and dignity.

[Cyber Crime \(Law Enforcement/Fire/Security\) Interactive Online Training \[E\]](#)

The Cyber Crime program deals with how individuals working for any company may commit criminal acts, perhaps without even knowing or realizing it. We'll discuss computer privacy, as it applies to you at work. Computers and the Internet have revolutionized the way we do business. Along with this technology we are introduced to cyber crime and privacy issues. Hacking into computers is a cyber crime. Privacy will be discussed.

[Cybersecurity Protecting Your Digital Workspace Interactive Online Training \[E,S\] \[2022\]](#)

In this training, you will learn about typical cyberthreats, reflect on the security of your own sensitive information, consider your status as a target, will learn about the steps of cyberattacks, and explore how everyone involved can better protect against cyberthreats.

[Dealing With Hazardous Spills Interactive Online Training \[E,S\] \[2017\]](#)

Atlantic's Dealing With Hazardous Spills video Program is designed to help employees who seldom have to face the dangers of a hazardous spill deal with a cleanup situation.

[Delivery Truck/Van Safety Interactive Training \[E,S\] \[2014\]](#)

[Diabetes Prevention \[E\]](#)

Diabetes is a major health problem in many countries, not only the United States. Many people don't know or understand diabetes and how it affects your health. We encourage the people who have been diagnosed as pre-diabetes and those with Type 2 diabetes to research the subject as it can be a serious health problem.

[Diet, Nutrition, And Cancer Prevention Interactive Online Training \[E\] \[2006\]](#)

Diet, Nutrition, and Cancer Prevention Details

Diet, Nutrition, and Cancer Prevention program is about how you can take steps to help protect yourself and your family from various types of cancer. Many studies of the habits of people all over the world suggests that you can reduce the risk of getting cancer by making healthy choices about the food you eat, the beverages you drink, and whether or not you smoke. About 1/3 of all cancer deaths may be related to what we eat. Making positive choices in your diet every day promotes good nutrition and good health and may reduce your risk of some types of cancer. This program is designed for healthy people and its' recommendations are consistent with seven simple guidelines developed to help people eat and maintain a healthy diet.

[Disaster Workers Code of Safe Practices Interactive Training \[E\] \[2008\]](#)

Disaster Workers Code of Safe Practices Details

Disaster Workers Code of Safe Practices program reviews some basic guidelines and a code of safe practices to help disaster workers during emergencies. Disaster workers around the world are to be heartily commended for their service during emergency times. Safety and health are important issues, not only to the people who are victims of disasters, but also to the professionals who render emergency services.

[Distracted Driving Interactive Training \[E,S\] \[2015\]](#)

Atlantic's Distracted Driving video Program provides the information employees need to drive cars, vans and small trucks safely, both on and off the job.

[Diversity in the Workplace: Candid Conversations Interactive Online Training \[E,S\] \[2022\]](#)

A fundamental hiring goal is to at least provide representation based on local demographics. Affirmative action principles recognize that this is not enough. Areas with very homogenous populations typically lack the benefits of a diverse workforce, and purposeful recruitment and advancement practices are required. In this training, we focus on four facets of diversity: race, gender, age, and disability. There are absolutely other ways in which humans are diverse – including how we self-identify. Starting with these areas instead sets the stage for fostering a diverse workplace

[Dog Bite Prevention \(Manufacturing\) Online Interactive Training \[E\] \[2006\]](#)

For every letter carrier bitten by a dog, an estimated 900 children are victimized by the senseless pain and suffering of dog attacks. Dog bites result in approximately 44,000 facial injuries in the United States. Male patient injuries slightly outnumber females in most studies. This program covers dog behavior, prevention techniques and first aid. Also included are tips from Ron Berman, canine behavior expert.

[Dog Bite Prevention \(Public Agency\) Online Interactive Training \[E\] \[2006\]](#)

Dog Bite Prevention (Public Agency) Details

For every letter carrier bitten by a dog, an estimated 900 children are victimized by the senseless pain and suffering of dog attacks. Dog bites result in approximately 44,000 facial injuries in the United States. Male patient injuries slightly outnumber females in most studies. This program covers dog behavior, prevention techniques and first aid. Also included are tips from Ron Berman, canine behavior expert.

[DOT Cargo Securement Interactive Online Training \[E\] \[2021\]](#)

[DOT Commercial Motor Vehicle Inspections Interactive Online Training \[E,S\] \[2022\]](#)

An estimated 15.5 million trucks operate on the roads in the United States. To help keep the roads safe for everyone who uses them, the Department of Transportation requires motor carriers to implement a program of regular inspection and maintenance for the trucks that they operate... whether they have a large fleet, or just a single truck. Commercial drivers play an important part in these programs, and the inspections they perform help to ensure that any problems with a vehicle are identified and repaired before they hit the road.

[DOT Drug and Alcohol Testing for CDL Drivers \[E\] \[2021\]](#)

Everyone knows that alcohol, drugs and driving don't mix. Yet drivers who are "under the influence" are still a major cause of accidents. To help ensure that drivers of commercial vehicles stay drug- and alcohol-free behind the wheel, the Federal Transportation Employee Testing Act requires motor carriers to establish rigorous drug and alcohol testing programs. Atlantic Training's new "Drug and Alcohol Testing for CDL Drivers" course discusses this requirement and how it affects transportation employees...and reviews the testing process itself, what happens if a driver tests positive for a substance and how to get help for a drug or alcohol problem.

"Drug and Alcohol Testing for CDL Drivers" uses a powerful combination of full-motion, high-definition video filmed in real workplace locations along with audio, text and colorful graphics to provide the most cost-effective training available today.

[DOT HAZMAT General Awareness Interactive Training \[E,S\] \[2018\]](#)

Atlantic's DOT HAZMAT General Awareness video Program focuses on employees who handle hazardous materials.

[DOT HAZMAT Safety Interactive Training \[E,S\] \[2018\]](#)

Atlantic's DOT HAZMAT Safety Training video Program focuses on employees who handle hazardous materials. The program makes employees aware of the hazards associated with the materials they handle... and shows them how to work with these materials safely.

[DOT HAZMAT Security Awareness for Drivers Interactive Online Training \[E\]](#)

This course, written for drivers of hazardous materials shipments, covers the new requirements designed to enhance the safety of hazardous materials, per the March 25, 2003, DOT final rule, "Hazardous Materials: Security Requirements for Offerors and Transporters of Hazardous Materials." This course can be used for either new employees or as refresher training.

[DOT HAZMAT Security Awareness Interactive Training \[E,S\] \[2018\]](#)

Atlantic's DOT HAZMAT Security Awareness video Program focuses on employees who handle hazardous materials and making them aware of the security risks associated with transporting hazardous materials.

[DOT Hours of Service Interactive Online Training \[E,S\] \[2021\]](#)

24 hours a day, seven days a week, trucks are rolling. The drivers of these rigs are also helping to drive the day-to-day commerce that powers our economy. So it's important that they not only have the knowledge, skill and commitment to help keep our roads safe, but that they are rested and alert whenever they are driving. So the Department of Transportation has established an "Hours of Service" regulation to ensure that drivers get the rest they need to drive safely. The course "DOT Hours of Service" discusses the Department of Transportation's "Hours of Service" regulations, what the regulations themselves require, and what drivers need to do to comply with them.

[DOT In-Depth HAZMAT Security Interactive Training \[E,S\] \[2018\]](#)

Atlantic's DOT HAZMAT In-Depth Security video Program focuses on employees who handle hazardous materials and making them aware of the risks associated with transporting hazardous materials, giving them a good understanding of what is addressed in their facility's HAZMAT Security Plan.

[DOT Reasonable Suspicion Testing for Managers and Supervisors: Part I Online Interactive Training \[E\] \[2022\]](#)

Everyone knows that alcohol, drugs and driving don't mix. Yet drivers who are "under the influence" are still a major cause of accidents. To help ensure that drivers of commercial vehicles as well as other transportation employees with "safety sensitive" jobs such as mechanics and warehouse workers stay drug- and alcohol-free, the Federal Transportation Employee Testing Act requires motor carriers to establish rigorous drug and alcohol testing programs. This two-part course has been created to satisfy the DOT's 2-Hour Reasonable Suspicion training requirements.

[DOT Reasonable Suspicion Testing for Managers and Supervisors: Part II Interactive Online Training \[E\] \[2022\]](#)

In Part I of this program on "Reasonable Suspicion", we discussed the responsibilities of managers and supervisors in making sure that drivers of commercial vehicles and other transportation employees with "safety sensitive" jobs are not under the influence of drugs while they are working. But drugs are not the only substances employees can use that impair their judgment and affect their ability to perform their job safely. Alcohol can be a serious problem as well. So it is important to know the "indicators" of alcohol consumption, and when to consider sending an employee for a "Reasonable Suspicion" test. This two-part course has been created to satisfy the DOT's 2-Hour Reasonable Suspicion training requirements.

[DOT "Reasonable Suspicion" Testing Overview for Managers and Supervisors \[E,S\] \[2021\]](#)

Federal law specifies several situations in which motor carrier employees who perform "safety-sensitive" duties, such as drivers, are required to undergo drug or alcohol testing. One of these is when there is a "reasonable suspicion" that they may be "under the influence".

[Driver Qualifications \(DQ\) for CMV Drivers \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), provides an overview of the Qualification of Drivers regulations with an emphasis on what the driver needs to know.

[Driver Qualifications \(DQ\) for CMV Drivers Online Course \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), provides an overview of the Qualification of Drivers regulations with an emphasis on what the driver needs to know.

[Driver Qualifications \(DQ\) for Management Online Course \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), covers the regulations in Part 391 of the Federal Motor Carrier Safety Regulations (FMCSRs): Qualifications of Drivers. This course outlines the minimum regulatory requirements for Driver Qualifications that must be observed by all interstate motor carriers and drivers.

[Driver Training: Employee Safety Interactive Online Training \[E,S\] \[2023\]](#)

Have you ever followed behind a truck with a sign that says, "How am I driving?". That sign is a reminder that employees behind the wheel of a work vehicle will be held to a higher standard of driving safety than anyone else on the road. To them, you are the person responsible for the impression others have of the company: good or bad. If you're changing lanes quickly, driving aggressively, or speeding, then not only are you putting yourself at risk but opening your employer to risks that are avoidable.

[Driving Defensively for CDL/Large Vehicle Drivers: Handling Adverse Conditions Interactive Online Training \[E\] \[2021\]](#)

Driving defensively isn't just about your driving skills or your experience. It's about being aware of what is going on around you, anticipating what could happen and knowing what to do in any situation. Because trucks behave differently than other vehicles, truck drivers need to react differently when they encounter unusual or emergency situations. The course on "Driving Defensively for CDL/Large Vehicle Drivers: Handling Adverse Conditions" discusses how drivers can prepare for and drive defensively when encountering bad weather, work zones, distracted and aggressive drivers and more.

[Driving Defensively for CDL/Large Vehicle Drivers: The Basics Interactive Online Training \[E\] \[2021\]](#)

When you drive defensively, you're always "looking for trouble". Not that you want to cause any, but so you can "defend" yourself against other drivers and the trouble they can create. Whether they're speeding, tailgating, or just not paying attention to what they're doing, other drivers can put you at risk... but they're not the only problem. The course on "Driving Defensively for CDL/Large Vehicle Drivers: The Basics" discusses how truckers can not only prepare and defend themselves from other drivers, but from driving hazards such as low visibility, work zones and pedestrians as well.

[Driving Defensively Interactive Training \[E,S\] \[2015\]](#)

Atlantic's Driving Defensively video Program provides the information employees need to drive cars, vans and small trucks safely, both on and off the job. Our training products on Driving Defensively provide the information employees need to drive cars, vans and small trucks defensively, both on and off the job.

[Driving In Extreme Weather Conditions Online Training \[E\] \[2008\]](#)

The information in this program will reinforce safety practices when you drive and work in extreme weather conditions. As you drive through challenging weather conditions, proceed slowly and cautiously.

[Driving Safety Interactive Online Training \[E,S\] \[2019\]](#)

Atlantic's Driving Safety video Program provides the information employees need to drive cars, vans and small trucks safely, both on and off the job.

[Driving Safety: The Basics Interactive Training \[E,S\] \[2015\]](#)

Atlantic's Driving Safety: The Basics video Program provides the information employees need to drive cars, vans and small trucks safely, both on and off the job.

[Drug and Alcohol Abuse for Employees in Construction Environments Interactive Training \[E,S\] \[2017\]](#)

Atlantic's Dealing with Drug and Alcohol Abuse for Employees video Program explains to employees the various types of substance abuse that are found on a jobsite, how they can affect an employee's work situation and what employees themselves can do to help keep their jobsite drug and alcohol free.

[Drug and Alcohol Abuse for Employees Interactive Training \[E,S\] \[2017\]](#)

In the United States there are over 38 million binge drinkers, almost 25 million illegal drug users and more than 6 million people who abuse prescription drugs... and most of them have jobs. Substance abuse directly affects the user's personality, health and ability to function safely in a workplace. It can also decrease productivity, create a hostile work environment and damage their company's reputation. Atlantic Training's "Dealing with Drug and Alcohol Abuse... for Employees" training products discuss the hazards of substance abuse, how employees can avoid them and what they can do to help keep their workplace drug and alcohol-free.

[Drug and Alcohol Abuse for Managers and Supervisors in Construction Environments Interactive Training \[E,S\] \[2017\]](#)

Atlantic's Dealing with Drug and Alcohol Abuse for Managers and Supervisors in Construction Environments video Program discusses the various forms of substance abuse that are typically found on a jobsite, how managers and supervisors can detect substance abuse problems, and what they should... and shouldn't... do if they discover a worker with a substance abuse problem.

[Drug and Alcohol Abuse for Managers and Supervisors Interactive Training \[E,S\] \[2017\]](#)

Atlantic's Dealing with Drug and Alcohol Abuse... for Managers and Supervisors video Program discusses the various forms of substance abuse that are typically found in the workplace, how managers and supervisors can detect substance abuse problems, and what they should... and shouldn't... do if they discover a worker with a substance abuse problem.

[Drug and Alcohol for Management \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), looks at the motor carriers requirements for a Controlled Substances and Alcohol Use Testing Program. The course focuses on the key aspects of a regulation-compliant drug and alcohol testing program.

[Dump Truck Safety Interactive Training \[E\] \[2008\]](#)

Dump trucks can carry and dump material, tow equipment and trailers, spread salt and sand on icy roads and apply asphalt on roads. There are a variety of makes and models of trucks; therefore it is important to review the truck's safety and maintenance requirements as outlined in the operator's manual. This program discusses maintenance and operation of typical dump trucks with emphasis on safety.

[Earthquake Safety Interactive Training \[E\] \[2008\]](#)

Earthquake Safety (Misc.) Details

Earthquake Safety program provides procedures to follow in the event of an earthquake that may save your life. Preparing for an earthquake is everyone's job. California and other parts of the country are subject to earthquakes and these earthquakes can occur any time of the year. This program answers the questions of what we should do when the windows start to rattle or the chandelier begins to swing slowly back and forth.

[Effective One-on-Ones for Managers: Strategies for Success Interactive Online Training \[E,S\] \[2023\]](#)

[Electric Pallet Jack Training Online Training \[E\] \[2009\]](#)

This program provides basic safety tips and maintenance procedures. A very important piece of equipment in the warehouse and material-handling areas is the electric pallet jack. It's an economical and versatile unit, designed to move stacks of materials from one place to another safely and without injury or product damage. Because it's easy to use and provides such durable service, it's natural to take them for granted, but they're basic safety rules and operating procedures required when using this type of equipment.

[Electrical Safety for Qualified Workers Interactive Training \[E,S\] \[2014\]](#)

Electricity is a powerful force that can cause serious injury and death. When it comes to electrical job tasks, it only takes an instant to turn a momentary mistake into a fatality. This is why qualified electrical workers must understand the hazards presented by exposed energized parts and know how to protect themselves through the use of safe electrical work practices. That's the purpose of this program--to explain the safety precautions these employees must always take to avoid needless tragedies while performing any type of electrical work.

[Electrical Safety in the Laboratory Interactive Training \[E\] \[2014\]](#)

Atlantic's Electrical Safety in the Laboratory video Program emphasizes the need for safety when using electricity, and discusses how to reduce the potential for accidents involving electrical shock, fire and explosions.

[Electrical Safety Related Work Practices and the 2021 NFPA 70E For Electrical Workers Online Interactive Training \[E,S\] \[2021\]](#)

This program provides electrical workers with an understanding of those requirements of the 2021 NFPA 70E that relate to the safe performance of electrical work. It also explains the dual hazards of electric shock and arc flash as well as the factors that contribute to the severity of injury. To assist in meeting the annual requirement for contact release training, this program provides an explanation of electrical contact release and demonstrates how to safely remove a worker from an energized source.

[Electrical Safety Related Work Practices and the 2021 NFPA 70E For Supervisors and Managers Online Interactive Training \[E\] \[2020\]](#)

To assist supervisors and managers in seeking out additional information, this program provides the regulation's article and section numbers for the referenced information as well as the specific numbers of the look-up tables used to determine approach boundaries and the selection of personal protective equipment.

[Electrocution Hazards in Construction Environments: Part II... Employer Responsibilities Interactive Training \[E,S\] \[2020\]](#)

While electrical energy does a lot of useful work on a job site, it can create serious hazards as well. Electricity kills more than a hundred construction workers each year and injures thousands more. They also suffer more than half of the electrical injuries that occur on the job. But these incidents could have been prevented.

[Electrocution Hazards Part I: Worksite Safety Interactive Training \[E,S\] \[2020\]](#)

Getting things done on a job site can require plenty of electrical energy, and it's easy to forget that electricity can cause painful shocks, burns... even "electrocution". Every year, it causes hundreds of deaths and thousands of injuries in the construction industry. But these incidents could have been prevented.

[Emergency Evacuation Interactive Training \[E\] \[2008\]](#)

Emergency Evacuation Details

There are many types of disasters and the commitment for safety and health of all employees is a high priority. Surviving any type of disaster is preparing for the emergency. Emergency action plans include access to medical facilities, transportation and communications. Emergency preparedness should be done in the workplace and at home. This program covers evacuation procedures in emergency situations with emphasis on safety.

[Emergency First Aid \(Health Care\) Interactive Training \[E\] \[2009\]](#)

Emergency First Aid (Health Care) Details

Emergency First Aid program is designed to provide basic information on how to properly apply first aid in emergency situations. First Aid is the immediate care given to the injured or suddenly ill person. It's temporary assistance that is rendered until competent medical care, if required, arrives and takes over. Emergency First Aid means dealing with urgent conditions. This program has been designed to help provide basic information that will help you properly apply first aid that can save lives, reduce recovery time, and can possibly be the difference between temporary disability or lifelong disability for the victim.

[Emergency Incident Response Interactive Training \[E\] \[2008\]](#)

Emergency Incident Response Details

Emergency Incident Response program is designed to provide basic information and guidelines relating to emergency response. When talking about incident response, you might think of a major fire department's command and control of a particular situation. Emergency response is a major operation center with radios, communications, and a wide variety of people performing special tasks to ensure all the proper resources are provided for the incident.

[Emergency Planning Community Right To Know Act - EPCRA Interactive Training \[E\] \[2006\]](#)

Emergency Planning Community Right To Know Act - EPCRA Details

Emergency Planning Community - Right To Know Act program covers the subtitles, reporting, enforcement and hazardous chemical inventory forms. EPCRA was passed primarily as a means of filling this informational void and improving emergency response capabilities. Also known as Title III of SARA, EPCRA was enacted by Congress as the national legislation on community safety. SARA is the Superfund Amendments and Reauthorization Act. The EPCRA law was designated to help local communities protect public health, safety, and the environment from chemical hazards. To implement EPCRA, Congress requires each state to appoint a State Emergency Response Commission (SERC). The SERCs were required to divide their states into Emergency Planning Districts and to name a Local Emergency Planning Committee (LEPC) for each district.

[Emergency Planning Interactive Training \[E,S\] \[2015\]](#)

Atlantic's Emergency Planning video Program assists facilities in complying with various federal and state regulations and helps them prepare for potential emergency situations.

[Emergency Preparedness And Recovery Lessons Learned Interactive Training \[E\] \[2005\]](#)

Emergency Preparedness and Recovery Lessons Learned Details

Emergency Preparedness and Recovery Lessons Learned program relates to almost any type of emergency, including terrorism, although we will discuss predominantly hurricane and flooding disasters. Without trying to recap what occurred with the Katrina and Rita disasters, we'd like to present ideas, recommendations, and observations about emergency preparedness, as lessons learned from first responders, corporations, the government, and volunteer organizations.

[Emergency Preparedness and Safe Evacuation Interactive Training \[E,S\] \[2020\]](#)

Atlantic's Emergency Planning video Program assists facilities in complying with various federal and state regulations and helps them prepare for potential emergency situations.

[Emergency Preparedness At Home Interactive Training \[E\] \[2005\]](#)

Emergency Preparedness At Home Details

The Landers, California earthquake on June 28, 1992 measured 7.5 on the Richter scale. One person was killed and more than 350 were injured. Since then seismologists have warned us the "big one" has a 50-50 chance of occurring within the next 25 years. This program will instruct you in life safety and life sustaining actions before, during, and following an earthquake.

[Emergency Preparedness At Work Interactive Training \[E\]](#)

Emergency Preparedness At Work - Emergency Preparedness in the Workplace and it will save lives and prevent injuries if the steps within the program are followed. The life you save may be your own or of a co-worker and could mean the difference between continuing business after a disaster or being unemployed for months waiting for the workplace to continue business.

The most crucial element in surviving any type of natural disaster is preparing for the emergency. This program will instruct you in life safety and life sustaining actions before, during, and following an earthquake or any other type of disaster.

[Emergency Responders - Bloodborne Pathogens \(Schools\) Interactive Training \[E\] \[2008\]](#)

Emergency medical responders save lives. Emergency responders are highly skilled professionals dedicated to their jobs and they perform these jobs above and beyond the call of duty on a daily basis. Regardless of the obstacles, the problems, the long hours, they come through in emergencies. The general public doesn't think about the services these professionals provide, they know the services will be there when and if the need arises. Whether you're a police officer, fire professional, industrial first aid or CPR trained person, Emergency Medical Technician, Correctional Officer, or other emergency responder, you have a big responsibility that requires a lot of skill, training, expertise, and dedication to the job.

[Employee Productivity Interactive Online Training \[E\] \[2009\]](#)

Employee Productivity program is designed to provide solutions to employee productivity. It's been said that a company is only as good as its supervisors. Good supervision by a good supervisor. A good supervisor is the link between employees and upper level management, a role model, a leader, an evaluator, should also be flexible and fair. A supervisor should know workplace policies, coach employees, observe and document employee performances, troubleshoot, communicate.

[Employee Safety Orientation \(Supermarket\) Interactive Training \[E\] \[2008\]](#)

This program covers some basic safety rules that apply to all employees.

[Employee Training Responsibilities Interactive Online Training \[E\] \[2009\]](#)

Training and development are areas of concern to the supervisor and the company. The efficiency, safety, and even the morale of the employee depends on how well the supervisor trains his/her employees.

[Employer's Rights After an OSHA Inspection Interactive Online Training \[E\] \[2006\]](#)

The information in this program is from the U.S. Department of Labor, OSHA, and 1989 Revised OSHA 3000 booklet. Refer to Occupational Safety and Health Act of 1970 or for any standards issued by OSHA.

[EMS Patient Lifting - Preventing Back Injuries \(Emergency Preparedness\) Interactive Online Training \[E\] \[2009\]](#)

EMS Patient Lifting - Preventing Back Injuries (Emergency Preparedness) Details

EMS Patient Lifting - Preventing Back Injuries program is about looking at unusual situations you may encounter and how to lift safely. Emergency Medical Service (EMS) personnel are highly trained, capable, and extremely professional in attending the needs of victims in times of emergencies. According to historical statistics, EMS professionals do not always take care of themselves, particularly when it comes to back strains, sprains and injuries.

[EMS Patient Lifting - Preventing Back Injuries Interactive Online Training \[E\] \[2008\]](#)

EMS Patient Lifting - Preventing Back Injuries Details

EMS Patient Lifting - Preventing Back Injuries program is about looking at unusual situations you may encounter and how to lift safely. Emergency Medical Service (EMS) personnel are highly trained, capable, and extremely professional in attending the needs of victims in times of emergencies. According to historical statistics, EMS professionals do not always take care of themselves, particularly when it comes to back strains, sprains and injuries.

[Entry-Level CMV Driver Training Online Course \[E\]](#)

The Federal Motor Carrier Safety Administration, per 49 CFR Subpart E - Entry-Level Driver Training Requirements, requires all entry-level drivers who drive in interstate commerce and are subject to the commercial driver license (CDL) requirements of 49 CFR Part 383 to complete training addressing the following four areas: Driver qualification requirements, Hours of service of drivers, Driver wellness, and Whistleblower protection. This course covers all four topics for the new commercial motor vehicle (CMV) driver.

[Environmental Protection Agency \(EPA\) 1990 Clean Air Act Interactive Online Training \[E\] \[2006\]](#)

Environmental Protection Agency (EPA) 1990 Clean Air Act Details

The EPA's major problem is to solve oil spills, hazardous waste, and materials. The Clean Air Act is the comprehensive federal law that regulates air emissions from area, stationary, and mobile sources. This program explains the role of government, pollution, permits, and enforcement.

[Ergonomics \(Construction\) Online Course \[E\]](#)

Construction work is physically demanding. Workers often need to lift, stoop, bend, kneel, twist, stretch, and repeatedly perform other physically awkward tasks. Constantly pushing the body past its natural limits can lead to work-related musculoskeletal disorders. This is why ergonomics plays such an important role in preventing injuries on-the-job. This course explains the role ergonomics should play in maintaining safety at a construction work site. This includes identifying the types and causes of work-related musculoskeletal disorders and explaining the tools, equipment, and work practices employees can use to prevent them.

[Evacuation Procedures Interactive Training \[E,S\] \[2015\]](#)

Atlantic's Evacuation Procedures video Program provides the information employees need to learn what steps to take to act quickly and safely during an evacuation.

[Eye Safety in Construction Environments Interactive Training \[E,S\] \[2018\]](#)

An estimated 24 million eye injuries occur in the U.S. each year. About 2,000 of them will occur today, and every day thereafter, while people are at work. All too many of them will cause the victim to lose some or all of their eyesight. But eye injuries can be prevented. Atlantic Training's training products on "Eye Safety in Construction Environments" provide employees with the information they need to recognize and avoid eye hazards that they can encounter on a job site.

[Eye Safety Interactive Training \[E,S\] \[2018\]](#)

Atlantic Training's "Eye Safety" Video/DVD Program provides employees with the information they need to recognize and avoid eye hazards that they can encounter in their workplace. An estimated 24 million eye injuries occur in the U.S. each year. About 2,000 of them will occur today, and every day thereafter, while people are at work. All too many of them will cause the victim to lose some or all of their eyesight. But eye injuries can be prevented.

[Fall Protection in Construction Interactive Training \[E\] \[2009\]](#)

Fall Protection (Construction) Details

There are various types of fall protection such as guardrails, safety nets and covers for open surfaces. Falls from any height can cause serious injury. OSHA requires fall protection if work is done at six feet or higher. Personal fall system protection can be a full body harness, lanyard, snap hooks and an anchorage point. Employees must be kept informed of fall protections, OSHA standards, equipment and everything necessary to prevent falls.

[Fall Protection in Industrial and Construction Environments Interactive Training \[E,S\] \[2019\]](#)

"Fall Protection in Industrial and Construction Environments" training from Atlantic discuss the fall hazards that can be encountered in a workplace and what employees can do to avoid them.

[Fatigue Management Interactive Training \[E\] \[2010\]](#)

Fatigue Management Details

There are huge demands on trucking and logistics industries to meet the growing need to move raw materials and finished products. With these demands, fatigue becomes a major concern for drivers and motor carriers alike. This program deals with the problems and causes truck drivers have in dealing with fatigue.

[Fighting Fatigue in the Workplace Interactive Training \[E\] \[2018\]](#)

Tired people make mistakes. That's why workplace fatigue can significantly increase the likelihood of employees being hurt, even killed, on the job. It also reduces productivity and increases expenses. Each year, fatigue costs U.S. businesses more than \$130 billion dollars. But it can be prevented.

[Financial Responsibility for Property-Carrying Motor Carriers Online Course \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), covers the regulations in Part 387 of the Federal Motor Carrier Safety Regulations (FMCSR): Minimum Levels of Financial Responsibility for Motor Carriers. This course outlines the regulatory requirements for securing and maintaining policies of insurance, surety bonds and endorsements to cover at least the minimum motor carrier financial responsibility for motor carriers of property.

[Fire Extinguishers: Putting Out The Fire Interactive Online Training \[E,S\] \[2021\]](#)

Atlantic Training's products on "Using Fire Extinguishers" look at different types of fires, discuss how they should be put out, and explain how employees can use extinguishers effectively and safely if a fire emergency occurs.

[Fire Prevention in Healthcare Interactive Training \[E,S\] \[2017\]](#)

Every year more than a million fire emergencies are reported in the U.S., with over 5,000 of them taking place in healthcare facilities. They cause injuries, deaths and more than \$45 million in damage. Atlantic Training's "Fire Prevention in Healthcare Facilities" training products look at the fire hazards that can be encountered in healthcare environments, discuss how fires can be prevented, and explain what employees should do in case a fire emergency occurs in their workplace.

[Fire Prevention in the Office Interactive Training \[E,S\] \[2017\]](#)

Atlantic's "Fire Prevention in the Office" training products look at the fire hazards that can be encountered in office environments, discuss how fires can be prevented, and explain what employees should do in case a fire emergency occurs in their workplace.

[Fire Safety \(Construction\) Online Course \[E\]](#)

This course teaches employees the OSHA standard for workplace safety regarding fire in the construction industry.

[Fire Safety and Emergency Preparedness \(General Industry\) Online Course \[E\]](#)

OSHA requires employers to provide a safe workplace, which includes preparing for all sorts of emergencies. Workplace emergencies can be natural or manmade. Either way, the biggest risk to workers often isn't the emergency itself, but injuries sustained when trying to escape because of panic, confusion, and lack of information. This course covers the OSHA standards for fire prevention and emergency preparedness.

[First Aid in Construction Environments Interactive Training \[E,S\] \[2018\]](#)

When a construction worker is injured or becomes ill on a job site, their coworkers will usually be the first ones "on the scene" and have the opportunity to provide some initial treatment. In these situations, they need to be able to recognize common injuries and illnesses and understand how to treat them. Atlantic's training products on "First Aid in Construction Environments" discuss what employees should do and not do when someone is sick or injured, and how to determine when they should call for emergency assistance.

[First Aid Online Interactive Training English/Spanish \[E,S\] \[2018\]](#)

Atlantic's First Aid video Program shows employees that knowing basic first aid can often limit the severity of any type of injury, or even prevent a death.

[First Aid Online Interactive Training Program \[E\] \[2005\]](#)

First Aid Details

First Aid program has been designed to help provide basic information that will help you properly apply first aid that can save lives, reduce recovery time and can possibly be the difference between temporary disability and lifelong disability for the victim. First aid is the immediate care given to the injured or suddenly ill person. It is temporary assistance that is rendered until competent medical care, if required, arrives and takes over.

Key Word: First Aid, Basic Information, Apply First Aid, Reduce Recovery Time, Immediate Care, Temporary Assistance, Competent Medical Care, Safety Video, Safety Training, Safety DVD.

[First Aid: Preparation and Response Interactive Online Training \[E,S\] \[2022\]](#)

This training will orient you to the major categories of risk and types of first-aid, give you an overview of the supplies and equipment involved – including guidance on preparing your own first-aid kit, will help you know what to do before choosing to administer first-aid, and walks you through some of the steps for performing first-aid for common injuries and illnesses. We will also explore what to do if you find yourself without a kit but needing to administer first-aid, the legal considerations involved in emergency care, and the next steps you can take to better prepare yourself and others to administer first-aid.

[Flammable Liquids Safety Streaming Interactive Online Training \[E\] \[2005\]](#)

[Flammables & Combustibles Online Interactive Training \[E\] \[2008\]](#)

[Flammables & Explosives in the Laboratory Interactive Training \[E\] \[2014\]](#)

Atlantic's Flammables and Explosives in the Laboratory video Program discusses the nature of flammable and explosive materials, as well as hazards associated with their use. It also reviews the proper handling procedures and personal protective equipment that should be used when working with these substances.

[FMCSR Motor Carrier Compliance General Applicability and Recordkeeping Online Course \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), outlines the circumstances under which an employer, employee or commercial motor vehicle is subject to the Federal Motor Carrier Safety Regulations.

[Food Handling Safety Interactive Online Training \[E,S\] \[2021\]](#)

The food supply in the United States is considered to be one of the safest in the world, yet according to the Centers for Disease Control, millions of Americans still come down with foodborne illnesses every year. Atlantic Training's "Food Handling Safety" course discusses the contamination hazards that are associated with food handling, and the materials, equipment and safe work practices employees should use to ensure that the foods they prepare won't make someone else sick.

[Food Service Safety and Sanitation \(Universities\) Online Training \[E\] \[2010\]](#)

When a food facility is given a satisfactory rating, it means on the day the health inspector visited, the establishment passed the requirements. It happens frequently that salmonella causes people to get sick. Food sanitation requires your attention if you work in the food industry or you cook at home. This program is designed to help reduce the risk of foodborne illnesses and other related diseases.

[Forklift: Certify and Comply Interactive Online Training \[E,S\] \[2018\]](#)

Forklifts or powered industrial trucks are commonly found in the industrial environment, as well as numerous other work settings. They are mainly used to move materials from one location to another and for loading and unloading products. Without proper training an employee is not authorized to operate these heavy machines.

[Forklifts and the Pedestrians Interactive Online Training \[E,S\] \[2019\]](#)

[Forklifts: Pedestrian Safety Interactive Online Training \[E,S\] \[2023\]](#)

It's important for both forklift drivers and pedestrians to always remain aware of their surroundings. While pedestrians have the right of way, that doesn't mean ignoring posted signs, crossing into the pathway of moving forklifts, or becoming distracted with your cell phone while in a working area. There are safety measures that can be taken from both sides: driver and pedestrian.

The driver should maintain a low speed, announce directions at intersections or blind spots, and use a spotter for crowded zones or areas with heavy pedestrian traffic. To support the driver's safety measures, pedestrians must do their part. Pedestrians should give forklifts room to operate, stick to marked walkways when possible, and respect the safety guidelines of the forklift. Do not ask for rides on the sides or forks, and never pass beneath a load.

[Front End Loader Safety Online Training \[E,S\] \[2009\]](#)

Front-End Loader Safety program will concentrate on the basic safe operations for the standard front-end loader. As an operator, you are a skilled professional who is responsible for an expensive piece of equipment, as well as the safety of those around you. You should not operate the front-end loader unless you have been fully trained and authorized by your organization.

[GHS Container Labeling Interactive Training \[E,S\] \[2019\]](#)

Atlantic's GHS Container Labeling video Program reviews the six types of information contained on a GHS label, and the differences between GHS labels and other types of chemical hazard labels.

[GHS Container Labeling... in Construction Environments Interactive Training \[E,S\] \[2019\]](#)

Atlantic's "GHS Container Labels in Construction Environments" training products discuss the HAZCOM Standard, the advantages of the GHS, and how the information on HAZMAT container labels can help employees to work safely with hazardous materials.

[GHS Safety Data Sheets in the Laboratory Interactive Training \[E\] \[2014\]](#)

Atlantic's GHS Safety Data Sheets in the Laboratory video Program reviews the composition of GHS Safety Data Sheets, the information that's contained in each section and how SDS's are different from Material Safety Data Sheets.

[GHS Safety Data Sheets... in Construction Environments Interactive Training \[E,S\] \[2019\]](#)

Atlantic's GHS Safety Data Sheets in Construction Environments video Program reviews the composition of GHS Safety Data Sheets, the information that's contained in each section and how SDS's are different from Material Safety Data Sheets.

[GHS: Hazardous Materials Labels Interactive Training \[E,S\] \[2020\]](#)

[GHS: Safety Data Sheets - The Basics Interactive Training \[E,S\] \[2020\]](#)

[GHS: The Basics Interactive Training \[E,S\] \[2018\]](#)

[Golf Cart Safety \(Misc\) Interactive Online Training \[E\] \[2005\]](#)

In addition to the golf course, golf carts are used for a wide variety of tasks in the workplace. These carts can also be referred to as industrial, service and electric carts. Carts are easy to operate, however proper training is important. This program outlines the safety responsibilities in maintenance and operating a golf cart.

[Good Manufacturing Practices in the Food Industry: Part I Interactive Online Training \[E\] \[2022\]](#)

Atlantic Training's course on "Good Manufacturing Practices in the Food Industry: Part I" contains valuable information about how employees can help their facility meet the criteria set by the first three sections of the FDA's GMP regulation... addressing Personnel, Plant and Grounds and Sanitary Operations.

[Good Manufacturing Practices in the Food Industry: Part II Interactive Online Training \[E\] \[2022\]](#)

Atlantic Training's course "Good Manufacturing Practices in the Food Industry: Part II" contains valuable information about how employees can help their facility meet the criteria set by the last four sections of the FDA's GMP regulation... addressing Sanitary Facilities and Controls, Equipment and Utensils, Manufacturing Processing and Controls, and Warehousing and Distribution.

[Ground Fault Circuit Interrupter \(GFCI\) Online Training \[E\] \[2008\]](#)

Insulation and grounding are two recognized means of preventing injury during electrical equipment operation. Grounding may be achieved through the use of direct connection to a known ground such as a metal cold water pipe. Electrical safety is much more than plugging your equipment into a receptacle and beginning work. This program focuses on the safe use of GFCIs.

[HACCP in the Food Industry Interactive Online Training \[E,S\] \[2021\]](#)

Atlantic Training's "HACCP Hazard Analysis and Critical Control Points in the Food Industry" training program discusses the most widely used, international food safety program the "Hazard Analysis and Critical Control Points" system, which ensures that the food reaching consumers is safe enough to eat.

[Hand & Power Tool Safety in Construction Environments Interactive Training \[E,S\] \[2018\]](#)

Hand and power tools allow construction workers to perform tasks that they could never do without them. But tools can also be dangerous. Injuries involving hand and power tools send almost half a million people to the emergency room every year, and cause a significant number of fatalities as well.

[Hand and Power Tools \(Construction\) Online Course \[E\]](#)

Hand tools play a big role in construction work. Because they are used so commonly, it is easy to forget how dangerous they can be when used incorrectly or maintained improperly. This course explains the importance of safely using and maintaining hand and power tools and identifies common hazards and how to avoid them.

[Hand, Wrist & Finger Safety in Construction Environments Interactive Training \[E,S\] \[2018\]](#)

Atlantic's training products on "Hand, Wrist and Finger Safety in Construction Environments" review the hand, wrist and finger hazards that employees may encounter on a job site, and show them the equipment and safe work practices they can use to prevent injuries.

[Hand, Wrist & Finger Safety Interactive Training \[E,S\] \[2018\]](#)

Atlantic's Hand, Wrist and Finger Safety video Program reviews hand, wrist and finger hazards and helps employees to take the steps necessary to avoid them.

[Handling A Sexual Harassment Investigation Interactive Training \[E,S\] \[2020\]](#)

Atlantic Training's "Handling a Sexual Harassment Investigation" training products provide managers and supervisors with the information they need to identify sexual harassment in their departments, gather facts about an incident of harassment and resolve the situation fairly.

[Handling Compressed Gas Cylinders in the Laboratory Interactive Training \[E\] \[2014\]](#)

Atlantic's Handling Compressed Gas Cylinders in the Laboratory video Program examines how gas cylinders work, the hazards that are associated with them and the need for caution when using or storing a cylinder.

[Handling Compressed Gas Safely \(Public Agency\) \[E\] \[2014\]](#)

The program covers the various types of gas that are contained in gas cylinders. Safe handling procedures and use of compressed gas are discussed. Gas cylinder sizes can range from a small table top cylinder to one ton cylinders. Anyone working with or handling compressed gas containers must be properly trained. This program focuses on the safe procedures in handling of compressed gas cylinders.

[Handling Emergencies Interactive Online Training \[E\] \[2013\]](#)

Handling Emergencies training video teaches professional security officers how to respond to incidents, including workplace violence, in the facilities that they protect. They must take control, activate agreed upon emergency procedures and take steps to prevent further harm.

[Hazard Communication in Auto Service Facilities Interactive Training \[E,S\] \[2020\]](#)

Atlantic's Hazard Communication in Auto Services Facilities video Program has been created to introduce employees to Hazard Communication regulations and provide training on the various types of chemicals found in industrial environments. This course also addresses the major education and training requirements in these chemical hazard laws.

[Hazard Communication in Cleaning & Maintenance Operations Interactive Training \[E,S\] \[2013\]](#)

Atlantic's Hazard Communication in Cleaning and Maintenance Operations video Program has been created to introduce employees to Hazard Communication regulations and provide training on the various types of chemicals found in cleaning and maintenance environments. This course also addresses the major education and training requirements in these chemical hazard laws.

[Hazard Communication in Cleaning and Maintenance Environments Interactive Training \[E\] \[2020\]](#)

Hazardous materials are used in many cleaning and maintenance tasks. OSHA's Hazard Communication ("HAZCOM") Standard gives employees the "right-to-know" about any potentially hazardous materials that can be encountered in their workplace, and how to handle them safely.

[Hazard Communication in Construction Environments Interactive Training \[E,S\] \[2020\]](#)

Atlantic's Hazard Communication in Construction Environments video Program has been created to introduce employees to Hazard Communication regulations and provide training on the various types of chemicals found in industrial environments. This course also addresses the major education and training requirements in these chemical hazard laws.

[Hazard Communication in Healthcare Interactive Training \[E,S\] \[2020\]](#)

Atlantic's Hazard Communication in Healthcare Facilities video Program has been created to introduce employees to Hazard Communication regulations and provide training on the various types of chemicals found in healthcare environments. This course also addresses the major education and training requirements in these chemical hazard laws.

[Hazard Communication in Hospitality Environments Interactive Online Training \[E\] \[2020\]](#)

Hazardous materials are used in many tasks that are performed in hospitality environments. OSHA's Hazard Communication ("HAZCOM") Standard gives employees the "right-to-know" about any potentially hazardous materials that can be encountered in their workplace, and how to handle them safely.

[Hazard Communication in the Hospitality Industry Interactive Training \[E,S\] \[2013\]](#)

Atlantic's Hazard Communication in the Hospitality Industry video Program has been created to introduce employees to Hazard Communication regulations and provide training on the various types of chemicals found in industrial environments. This course also addresses the major education and training requirements in these chemical hazard laws.

[Hazard Recognition Interactive Training \[E,S\] \[2016\]](#)

According to the Occupational Safety and Health Administration (OSHA), more than 3 million injuries and illnesses and more than 4,500 deaths occur on the job, each year. Reducing these numbers has to be a top priority for everyone in the workplace. Employers, employees, managers and supervisors can improve safety in their facility by identifying and controlling job hazards before they cause accidents. This process is called hazard recognition.

[Hazardous Materials Labels Interactive Training \[E,S\] \[2020\]](#)

Atlantic's "Hazardous Materials Labels" training products discuss the different labeling systems that employees are likely to encounter and how they can get the information they need about hazardous materials from them quickly and easily.

[Hazardous Materials: Hazard Communication and Spill Containment Interactive Online Training \[E,S\] \[2023\]](#)

It is critical that you remain informed and aware of any hazardous materials being used. Each type has specific risks, PPE requirements, containment, and decontamination processes. Having these requirements communicated proactively will allow you to stay informed and understand your role in both handling the material daily and what to do in case of an emergency.

This training will break down
Hazard communication basics
Hazardous materials safety training
and spill containment.

[HAZCOM: In The Know Interactive Online Training \[E\] \[2018\]](#)

Hazardous chemicals are found in more than 7 million workplaces and are regularly present in many different industries. Exposure to chemical hazards can cause detrimental health effects on employees when they aren't properly protected. It's required that employer's develop and implement a Hazard Communication Program.

[HAZWOPER: Accidental Release Measures & Spill Cleanup Procedures Interactive Training \[E,S\] \[2014\]](#)

Atlantic's Accidental Release Measures and Spill Cleanup Procedures HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees understand the plans and procedures necessary to safely contain and cleanup a hazardous materials spill.

[HAZWOPER: Confined Space Entry Interactive Training \[E,S\] \[2004\]](#)

Atlantic's Confined Space Entry HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees understand how to reduce or eliminate potential exposure to hazardous materials in their confined space work environments.

[HAZWOPER: Dealing With The Media In Emergency Situations Interactive Training \[E,S\] \[2004\]](#)

Atlantic's Dealing With the Media in Emergency Situations HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and instructs employees on the proper ways of interacting with the media during an emergency situation.

[HAZWOPER: Decontamination Procedures Interactive Training \[E,S\] \[2004\]](#)

Atlantic's Decontamination Procedures HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and instructs employees on the how to remove contaminants that accumulate on clothing and equipment.

HAZWOPER: Electrical Safety in HAZMAT Environments Interactive Training [E,S] [2014]

Atlantic's Electrical Safety in HAZMAT Environments HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees understand the hazards of uncontrolled energy in hazardous materials environments, and how to reduce or eliminate these potential hazards.

HAZWOPER: Emergency Response Plan Interactive Training [E,S] [2014]

Atlantic's The Emergency Response Plan HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and instructs employees who deal with hazardous materials why planning for emergencies is critical for their safety.

HAZWOPER: Exposure Monitoring & Medical Surveillance Interactive Training [E] [2004]

Atlantic's Exposure Monitoring and Medical Surveillance HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and discusses various types of exposure monitoring equipment and techniques. The program also explains medical surveillance and how it is used to evaluate the health of anyone who regularly works around hazardous materials.

HAZWOPER: Fire Prevention Interactive Training [E,S] [2014]

Atlantic's Fire Prevention HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees understand the hazards of fire when combined with hazardous materials.

HAZWOPER: Handling Hazardous Materials Interactive Training [E,S] [2014]

Atlantic's Handling Hazardous Materials HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and instructs employees on how to work safely with the chemicals that they encounter in their jobs.

HAZWOPER: HAZMAT Labeling Interactive Training [E,S] [2004]

Atlantic's HAZMAT Labeling HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and instructs employees who deal with hazardous materials that they can reduce the risk of accidental exposure by using the correct labels and placards on each chemical container.

HAZWOPER: Heat Stress Interactive Training [E,S] [2014]

Atlantic's Heat Stress HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees understand the need to guard against heat-related illnesses and what steps they can take to protect themselves in their work environments.

HAZWOPER: Introduction to HAZWOPER Retraining Interactive Training [E] [2014]

Atlantic's Introduction to HAZWOPER Retraining HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and reminds employees who deal with hazardous materials of the importance of identifying, evaluating and controlling chemical hazards.

HAZWOPER: Medical Surveillance Program Interactive Training [E,S] [2004]

Atlantic's Medical Surveillance Program HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and discusses various types of medical surveillance and how it is used to evaluate the health of anyone who regularly works around hazardous materials.

HAZWOPER: Monitoring Procedures & Equipment Interactive Training [E,S] [2004]

Atlantic's Monitoring Procedures and Equipment HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and discusses the importance of detecting hazardous materials, as well as the equipment and procedures used in the process.

HAZWOPER: Personal Protective Equipment & Decontamination Procedures Interactive Training [E] [2014]

Atlantic's Personal Protective Equipment and Decontamination Procedures HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and instructs employees on the appropriate use of personal protective equipment (such as chemical protective clothing) as well as how to remove contaminants that accumulate on clothing and equipment.

HAZWOPER: Personal Protective Equipment Interactive Training [E,S] [2004]

Atlantic's Personal Protective Equipment HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps instruct employees on the selection and use of personal protective equipment (such as chemical protective clothing and respirators) in environments where hazardous materials are present.

HAZWOPER: Respiratory Protection Interactive Training [E,S] [2014]

Atlantic's Respiratory Protection HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees avoid exposure to hazardous materials. The program instructs employees who deal with hazardous materials about how to protect themselves from respiratory hazards.

HAZWOPER: Safety Data Sheets in HAZWOPER Interactive Training [E,S] [2014]

Atlantic's GHS Safety Data Sheets in HAZWOPER Environments video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps instruct employees about the GHS SDS format and reviews how the information in an SDS can help them work safely with potentially hazardous chemicals.

HAZWOPER: Safety Orientation Interactive Training [E,S] [2014]

Atlantic's Safety Orientation HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees avoid exposure to hazardous materials. The program instructs employees about how to reduce or eliminate potential exposure to hazardous materials in their work environments.

HAZWOPER: Site Safety & Health Plan Interactive Training [E,S] [2014]

Atlantic's The Site Safety and Health Plan HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees avoid exposure to hazardous materials. The program summarizes the various aspects of the Plan which is used in a hazardous materials facility or operation, and how the Plan helps to protect the health of anyone who regularly works around hazardous materials.

HAZWOPER: Understanding Chemical Hazards Interactive Training [E,S] [2014]

Atlantic's Understanding Chemical Hazards HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and introduces employees to chemical hazard regulations and provides training on the various types of hazardous chemicals found in industrial environments.

[HAZWOPER: Understanding HAZWOPER Interactive Training \[E,S\] \[2014\]](#)

Atlantic's Understanding HAZWOPER HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), explains the regulations, and helps employees reduce or eliminate potential exposure to hazardous materials in their work environments.

[HAZWOPER: Work Practices and Engineering Controls Interactive Training \[E,S\] \[2014\]](#)

Atlantic's Work Practices and Engineering Controls HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees understand the nature and the behavior of hazardous chemicals, and reduce or eliminate potential exposure to hazardous materials in their work environments.

[Health Hazards in Construction: Lead and Silica Online Course \[E\]](#)

As a construction worker, you may sometimes encounter hazards to your health in the air that you breathe at work. Two of the most severe hazards come from lead and crystalline silica in the air. Both can cause you to suffer from debilitating, and even fatal, diseases.

This course covers information you need to know about lead and crystalline silica, and how to keep yourself safe from these hazards while at the work place.

[Hearing Conservation and Safety Interactive Training \[E,S\] \[2017\]](#)

Atlantic's Hearing Conservation and Safety video Program has been created specifically to involve employees in the process of understanding noise hazards and to help facilities in fulfilling the OSHA Occupational Noise Exposure and Hearing Protection Standard (29 CFR,1910.95) training requirements. The video program reviews why employees should pay attention to noise hazards, and how they can protect themselves from hearing injuries.

[Heat Stress \(Humorous\) Interactive Online Training \[E\]](#)

Being uncomfortable is not the only problem when working in high temperatures and high humidity. Human beings are warm blooded meaning regardless of external conditions, our body maintains a fairly constant temperature.

[Heat Stress: Employee Safety in Construction Interactive Online Training \[E,S\] \[2023\]](#)

In this training designed for construction workers, you will identify common risk factors of environmental heat and bodily overheating, learn the main dangers of heat exposure, and will explore safe work practices. Staying safe during hot, humid, or physically demanding tasks first involves recognizing potential hazards, unique physiological considerations, and workplace conditions.

[Heat Stress: Employee Safety Interactive Online Training \[E,S\] \[2023\]](#)

According to occupational injury data from the Bureau of Labor Statistics, dozens of workers die every year from heat exposure. Thousands more report sickness due to working in hot or humid environments. Heat hazards are present across many industries. Although most prevalent in the transportation, manufacturing, protective services, installation and repair, construction, and maintenance industries, risk of exposure to high temperatures can be identified in practically all occupations.

[Heat Stress: Facts & Prevention Interactive Training \[E,S\] \[2017\]](#)

[Heavy Equipment \(Construction\) Online Course \[E\]](#)

As a construction worker, you may encounter heavy equipment at the worksite. You may even operate heavy equipment. The equipment can save a lot of time, but it also introduces many hazards; this type of equipment can cause injuries, and even deaths, at construction worksites.

By following the safety rules for working with or near heavy equipment, you can avoid injuries. You will learn how to recognize and use the appropriate signs, signals, and barricades, the rules for safe operation of mechanized equipment, and the key function of roll-over protective structures. You can be safe when working with or near heavy equipment.

[Heavy Truck Braking System And Braking Techniques Interactive Training \[E\] \[2008\]](#)

Heavy Truck Braking System and Braking Techniques Details

The single most important component in any vehicle is the braking system, especially on heavy trucks. Some truck drivers do not understand how to operate heavy truck brakes. The tractor portion of a tractor-semi trailer rig may have ten or more valves controlling the air flow to the brakes. This program will discuss the different types of braking systems and operation.

[Hexavalent Chromium Employee Online Interactive Training \[E,S\]](#)

Hexavalent chromium is essential to a number of industrial applications: chromate pigments are used in dyes, ink and plastics, chromic acid is used in chrome plating and chromates are used to prevent corrosion in paints and other coatings. While these compounds can be very beneficial, they can also be harmful or lethal to those employees exposed to them. This program discusses the safe work practices these workers must follow to avoid exposures to this hazardous substance.

[HICS: Hospital Incident Command System Interactive Training \[E\] \[2007\]](#)

This course provides training in the Hospital Incident Command System, a nationally-recognized system that gives hospitals and other healthcare facilities an emergency management plan for any type of event that adversely affects the facility.

Using HICS allows healthcare facilities to integrate efficiently and effectively with management systems used by other emergency organizations.

[High Blood Pressure Online Interactive Training \[E\]](#)

Blood pressure is the force of blood against your artery walls as it circulates through your body after being pumped by the heart. Blood pressure normally rises and falls throughout the day, but can cause health problems if it remains high for a long time. High blood pressure can lead to many health issues, including heart disease and stroke which are leading causes of death in the United States.

Most of the time, the effects of high blood pressure are "silent" meaning you may feel no symptoms. That's why people can have high blood pressure and not even know it. In fact, it's a common health problem as 1 in 3 Americans have high blood pressure.

[HIPAA: Protections and Compliance Interactive Online Training \[E,S\] \[2022\]](#)

To get quality healthcare, people should not have to sacrifice the privacy or security of their personal health information. The set of regulations known as "HIPAA" ensures that private patient data remains private, but the laws can seem complex, and the penalties for non-compliance can be costly.

[Hospitality Customer Service Online Training \[E\] \[2009\]](#)

As an associate, you are the key to the company's success. Each associate makes a difference, no matter what part of the facility you work. Treating customers with respect is expected. This program discusses the general accepted customer service standards.

[Hot Work Safety and the Permitting Process Online Interactive Training \[E,S\] \[2017\]](#)

"Hot work" includes any tasks that involve flame or high heat, or can act as an ignition source. One in five industrial fires are caused by hot work and it can create major problems on construction sites as well. Hot work accidents result in more than \$300 million in property damage and more than 30 fatalities per year, but these incidents are preventable. Atlantic Training's "Hot Work Safety and the Permitting Process" training products discuss the hazards that can be encountered in hot work and focus on how employees can use the permitting process and other safe practices to perform these tasks more safely.

[Housekeeping On The Job Site Online Training \[E\] \[2011\]](#)

In every working environment, one of the most important employee responsibilities is to maintain a clean, neat and orderly workplace. There's always time enough to keep your work area clean. Participating in the safety program means greater job efficiency, productivity and an injury-free work environment. This program will focus on the employee's responsibility for a safe work environment.

[How To Communicate Effectively, Team Building, Getting Control of Your Time \[E\]](#)

[How To Fit Test Respirators Online Training \[E\] \[2008\]](#)

There are a variety of gases, fumes, vapors, dusts, mists, and other potentially hazardous materials in many industries. Protection from health hazards is a goal of all employers and employees. This program will look at respiratory protection and how you can protect your health against hazardous materials.

[Hydrogen Sulfide Employee Training Interactive Online Training \[E\]](#)

Employees can work safely in areas where the potential of hydrogen sulfide exists by following their organization's Hydrogen Sulfide Contingency Plan, knowing how and when to use respiratory protection and knowing the meaning of their facility's hydrogen sulfide warning sounds and signals. This program reviews these three key issues and many other precautions that protect employees from H2S exposures when followed.

[Hydrogen Sulfide Employee Training Interactive Training \[E,S\]](#)

This program reviews these three key issues and many other precautions that protect employees from H2S exposures when followed.

[Hydrogen Sulfide Training Online Training \[E\] \[2001\]](#)

Hydrogen Sulfide (H2S) is a by-product formed by decaying organic matter. It can be found in oil or gas operations, mining facilities, sewage, wastewater treatment plants, landfills and public utilities. (H2S) is invisible, explosive, flammable and deadly. It is the leading cause of death in the workplace. Employers are required to follow safety standards such as air monitoring and providing engineering controls in the workplace. This program defines (H2S) and the risk of exposure with emphasis on safety.

[I Can't Get No Traction Interactive Training \[E\]](#)

This four-minute, upbeat music video spotlights common slip, trip and fall hazards in unique and entertaining fashion. Inspired by the Rolling Stones tune, "Satisfaction," the custom lyrics to this music video provide a warning to those workers who move about the workplace in an unsafe manner. The program features a variety of realistic slip, trip and fall stunts that teach memorable lessons on distracted walking, running, poor housekeeping, improper ladder use, spills, moving equipment and wearing improper footwear.

[I Chose to Look the Other Way - French Interactive Online Training \[E\]](#)

[I Chose to Look the Other Way: Three Stories of Workplace Safety Interactive Training \[E,S\] \[2014\]](#)

In this dramatic telling of the popular "I Chose To Look The Other Way," viewers will witness examples of three common scenarios of workers not speaking up about safety. The storylines feature a failure to follow lockout/tagout, an employee neglecting to wear PPE and a worker choosing not to wear fall protection as the primary causes of incidents that result in fatalities; however, your employees will learn that the root cause of each was a reluctance to speak up. They will be convinced that speaking up about unsafe acts is critical in the prevention of workplace injuries. Some of the other safety concerns addressed in the program include supervisors, rushing, habits, shift work, and intimidation.

[I2P2: Injury and Illness Prevention Programs Interactive Online \[E,S\] \[2016\]](#)

Every day 12 workers die on the job, and more than 10,000 workers suffer serious job-related injuries. But the real tragedy is that most of these incidents could be prevented. Employers and employees can work together to find and fix the hazards in their workplace, before people get sick, injured or even killed.

[Incident Investigation: Root Cause to Corrective Action Interactive Online Training \[E,S\] \[2023\]](#)

OSHA stresses the importance of reporting and investigating incidents that cause injury or illness on your job sites. An incident is an occurrence during work that resulted in injury, illness, or property damage. The purpose of an incident investigation is to uncover the root cause of the occurrence and assign corrective actions so that your employees feel safe at work. This is not about assigning blame.

The investigation and tracking of incidents allow your company to understand safety risks and proactively use training or interventions to prevent future incidents. In this program, we will dig more into the proactive ways to address incidents.

[Indiana Metal Coil Certification Online Course \[E\]](#)

When cargo is transported on the highway, the cargo must be securely placed on or in the vehicle. Loose or falling cargo causes accidents - sometimes severe accidents. As a driver, you need to make sure your cargo is secure. This course provides details on the Federal Motor Carrier Safety Regulations (FMCSRs) covering the securement of metal coils, including the driver's responsibilities for cargo securement and the ways to safely secure this type of cargo.

[Indoor Air Quality Interactive Training Course \[E,S\] \[2017\]](#)

Atlantic's Indoor Air Quality video Program shows employees the potentially harmful effects of poor air quality, and will help them prevent, identify and correct air quality problems.

[Industrial Cranes & Rigging: Safety is in Your Hands Interactive Training \[E,S\] \[2013\]](#)

[Industrial Ergonomics Interactive Training \[E,S\] \[2018\]](#)

[Industrial Fire Prevention Interactive Training \[E,S\] \[2017\]](#)

Atlantic's "Industrial Fire Prevention" training products look at the fire hazards that can be encountered in industrial environments, discuss how fires can be prevented, and explain what employees should do in case a fire emergency occurs in their workplace.

[Injury Prevention for CDL Drivers Interactive Online Training \[E,S\] \[2022\]](#)

Almost every day you see images in the news of a horrific accident on the highway, many of them involving large trucks. But most of the injuries that CDL drivers suffer aren't a result of collisions at all. It's the incidents that occur inside and around the truck, such as hooking up a trailer, loading and unloading cargo, or just getting in and out of the cab that are more likely to lead to an injury. Every year almost 10% of truck drivers suffer from an injury serious enough that they have to miss work for an extended period of time. This can cause both the driver and their company a lot of pain, both physically and financially.

[Introduction to GHS \(The Globally Harmonized System\) for Construction Workers Interactive Training \[E,S\] \[2014\]](#)

Atlantic's Introduction to GHS (The Globally Harmonized System) for Construction Workers Construction Safety video Program is designed to review what the Globally Harmonized System is all about, why OSHA adopted the GHS, and the phase-in dates for implementing the GHS.

[Introduction to GHS \(The Globally Harmonized System\) Regulatory Compliance Interactive Training \[E,S\] \[2012\]](#)

Atlantic's Introduction to GHS (The Globally Harmonized System) video Program is designed to review what the Globally Harmonized System is all about, why OSHA adopted the GHS, and the phase-in dates for implementing the GHS.

[Introduction to Industrial Hygiene Interactive Online Training \[E,S\] \[2021\]](#)

Industrial hygiene has been defined as "The science and art devoted to the anticipation, recognition, evaluation and control of those environmental factors or stresses arising in or from the workplace, which may cause sickness, impaired health and well-being or significant discomfort among workers or the citizens of the community." Quite a mouthful. So what does that all mean? And what does an Industrial Hygienist actually do?

[Introduction to OSHA \(Construction\) Online Course \[E\]](#)

OSHA was created in 1971, and since that time, workplace fatalities have been cut in half and occupational injury and illness rates have declined 40 percent. The Occupational Safety and Health Administration (OSHA) exists as a federal agency in the Department of Labor. OSHA administers the federal safety and health laws that require employers to provide a safe and healthy workplace for their employees.

The OSHA regulations include an entire Part covering the construction industry - 29 CFR 1926. In this course we take a look at the OSH Act which created OSHA, OSHA's role in making workplaces safer, and OSHA's general requirements for construction workplaces.*Flash player may be required to play this course **DISCLAIMER:** this course does not track/score like other interactive courses. If you require one that does, please reach out to your representative.

[Introduction to OSHA Training Interactive Online Training \[E,S\] \[2017\]](#)

The Occupational Safety and Health Act of 1970 established that employees have a right to a safe and healthy workplace. The OSH Act also created OSHA, the Occupational Safety and Health Administration, which creates uniform regulations to protect worker health and safety across the country. To comply with OSHA requirements and build safety culture in a workplace, employers must ensure that employees have a solid understanding of OSHA's mission and how the agency protects them on the job. Atlantic Training's new Introduction to OSHA program discusses the rights and responsibilities employees and employers have under OSHA and how the agency enforces its regulations.

[It Only Takes A Second - French Online Interactive Training \[E,S\]](#)

[It Only Takes A Second II - French Online Interactive Training \[E,S\]](#)

[Janitorial Safety Interactive Training \[E,S\] \[2015\]](#)

[Job Safety Analysis Online Interactive Safety Training \[E\] \[2006\]](#)

Job Safety Analysis "Find It Before It Finds You" program provides the steps to be taken when performing a JSA. There are many tools which organizations use to help reduce and eliminate accidents and injuries. One of the more important tools is what we call the job safety analysis. It's been around for a long, long time. JSA or Job Safety Analysis is just fancy words for finding out potential job hazards and unsafe procedures so we can reduce accidents. In recent years, job hazard analysis has crept into the safety vocabulary as OSHA requires hazard assessments in many of their standards.

[Job Safety Analysis, Safety Awareness & You Interactive Training \[E,S\] \[2013\]](#)

While there are countless methods used to protect workers from injury, each method shares a common root. The genesis of all injury prevention methods is an understanding and awareness of the hazards to which a worker may be exposed. In other words, the company and the worker must be aware of a hazard before that hazard can be controlled. This program discusses the important roles played by both management and employees in recognizing and controlling workplace hazards and how this shared duty of safety awareness and hazard recognition helps prevent injury.

[Just A Second Ago: The Brad Livingston Story Interactive Training \[E,S\] \[2009\]](#)

When Brad Livingston decided to violate procedures, participate in a shortcut and condone the unsafe actions of a co-worker, his world was literally blown apart in a matter of seconds. As Brad was engulfed in flames, he fully expected to die, but thoughts of his three young daughters inspired him to fight for his life.

[Killer Bees, Wasps, and Spiders Interactive Online Training \[E,S\]](#)

Killer Bees, Wasps, and Spiders program includes on-camera interviews with Dennis Johnson, Bee Expert, Brent Batchelor, Bexar County Extension Agent, and Dr. Robert C. Rosenberg who share their expertise on this subject. Killer Bees, Wasps, and Spiders is the title of the program, but it's more than that. It's information and the proper protection to make sure you're prepared for an encounter with bees, wasps, and spiders. The most important fact to take with you today is not to panic when you're faced with a potential bite or sting. There's no need to panic because death rarely happens and armed with factual information, the chances are even less likely a death or serious injury will occur. To help reduce the risk of bees, wasps and spiders bites or stings, this program will provide a better understanding and prevention techniques when you are faced with a potential bite.

[Knife Safety In The Workplace Online Interactive Training \[E,S\]](#)

While the blade of a knife may be sharp, it's not very bright. It cannot tell the difference between cutting work material or slicing a hand or finger. That's why your employees must stay sharp, always keeping their minds on safety when using industrial knives. This program discusses common industrial knife safety rules and explains why a deep cut or laceration to a worker's hand can be so damaging.

[Laboratory Ergonomics Interactive Training \[E\] \[2014\]](#)

Atlantic's Laboratory Ergonomics video Program discusses the need to set up work areas correctly, as well as how to minimize the strain of using laboratory equipment, tools and instruments.

[Laboratory Hoods Interactive Training \[E\] \[2014\]](#)

Atlantic's Laboratory Hoods video Program emphasizes how to properly use laboratory hoods and how to test them to ensure correct functioning... as well as discusses how hoods can protect an experiment, the facility, and most importantly, the employee.

[Ladder Safety in Construction Environments Interactive Training \[E,S\] \[2019\]](#)

Atlantic's Ladder Safety in Construction Environments video Program shows that because they are so common, many employees take ladders for granted, and don't take the appropriate precautions when using ladders.

[Ladder Safety Interactive Training \[E,S\] \[2008\]](#)

[Landscape Maintenance Safety \(Public Agency\) Interactive Online Training \[E\] \[2006\]](#)

Landscape Maintenance Safety (Public Agency) Details

Landscape workers have a lot of responsibility maintaining parks, highways and other areas that provide enjoyment for a large number of people. They are also responsible for fire safety in these areas. The equipment, chemicals and techniques used can be hazardous. This program focuses on safety awareness in landscape maintenance.

[Lead Exposure in Construction Online Training Course \[E,S\] \[2016\]](#)

Lead is poisonous. If it's taken into the body, it can cause serious health problems and even be fatal. Most people who are exposed to lead today are exposed on the job. OSHA estimates that more than 800,000 U.S. workers work around lead regularly. Construction workers can be exposed to lead while doing demolition work, abrasive blasting, rivet busting, welding or cutting painted metal, using mortar that contains lead, and performing numerous other tasks. Atlantic's Lead Exposure in Construction Environments training products provide employees with the information they need to understand lead hazards and the safety regulations that address them. The program also explains how to recognize lead hazards on a job site and handle them safely.

[Lead Exposure in General Industry Interactive Training \[E,S\] \[2016\]](#)

Lead is poisonous. If it's taken into the body, it can cause serious health problems and even be fatal. Most people who are exposed to lead today are exposed on the job. OSHA estimates that more than 800,000 U.S. workers work around lead regularly. Employees can be exposed to lead while sanding and stripping lead-based paint, welding or cutting painted metal, repairing and servicing automobile brakes, manufacturing ceramics or electronics, smelting or casting metals and performing numerous other tasks. Atlantic's Lead Exposure in General Industry training products provide employees with the information they need to understand lead hazards and the safety regulations that address them. The program also explains how to recognize lead hazards in the workplace and handle them safely.

[Leadership Development: New Supervisor Interactive Online Training \[E,S\] \[2022\]](#)

So here you are a leader. You may be an aspiring, newly hired, or transitioning supervisor. This training is meant to help you get started on the right foot. This training helps you develop your leadership style and learn to adapt to the unique personalities and expectations of your team members. You will also learn about communication and the weight your decisions carry. This training emphasizes staying informed and involved to move your team forward while nurturing a positive workplace culture.

[Life is for Living - French Online Interactive Training \[E,S\]](#)

[Lifting Patients From Chairs Interactive Online Training \[E\] \[2007\]](#)

Lifting Patients From Chairs Details

Each patient and situation for moving a patient is unique. You may have to move a patient from a bed to a wheelchair or from a wheelchair to a bathtub. Each task is different and each one has a specific way in which it can be done safely and correctly. This video shows how to lift a patient using safe techniques.

[Loading Docks: Safe Work Practices Streaming Interactive Online Training \[E,S\] \[2023\]](#)

Loading docks are a high-risk area and should have unique solutions to ensure the safety of all personnel. This includes delivery drivers, material and product handlers, equipment operators, and any other person who enters or crosses the area. From preventing falls or back injuries through safe work practices to installing protection barriers, safety directors and supervisors should take preventative measures to ensure their loading docks meet OSHA standards. Ensuring safe practices, such as using wheel chocks and locking systems, can prevent serious, and even fatal accidents. This way, everyone gets to go home after completing a safe and productive workday.

[LockOut Tagout for Employees - Canada Interactive Online Training \[E\]](#)

Being around energy is an every day part of our lives, and an important part of our workplace operations. High pressure steam, electricity, hydraulic and pneumatic systems, even the force of gravity are common forms of energy used to power our machines and processes. While energy is obviously useful, it can also be dangerous. Understanding how to properly control hazardous energy is one of the keys to workplace safety.

[Lockout Tagout: Secure Safely Interactive Online Training \[E,S\] \[2018\]](#)

Employer's are required to have an energy-control plan implemented for all machines, which involves a lockout/tagout program. Atlantic Training's premier safety training program on Lockout/Tagout covers all the critical aspects relative to lockout/tagout and the proper implementation of an effective hazardous energy control plan.

[Lockout/Tagout: The Basics Interactive Training \[E,S\] \[2021\]](#)

[Machine Guard Safety Interactive Training \[E,S\] \[2019\]](#)

Atlantic's Machine Guard Safety video Program is designed to help employees understand the dangers of working with machinery... and how those risks can be minimized by proper installation and use of safety guards and devices.

[Machine Guarding: Safe Work Practices Interactive Online Training \[E,S\] \[2022\]](#)

Throughout this training, you will be asked to relate safety and machine guarding techniques to your own work environment.

[Making Safety Work: Overview of Workplace Safety & Responsibilities Online Training \[E,S\] \[2013\]](#)

This program provides an overview of common workplace hazards and how they are to be controlled while also demonstrating the importance of each employee's commitment and participation in the safety effort. Viewers will also see how easily injuries can occur when employees decide not to take responsibility for their safety.

[Managing Safety and Health Online Course \[E\]](#)

All levels of an organization, from the top management team through the entire organization of the work force, should actively participate in their Safety and Health Program. The priorities in a good Safety and Health culture include positive attitudes, safe behaviors, accountability, and continuous improvement. The resulting benefits of this type of safety culture can be seen in fewer risky behaviors, reduced numbers of accidents and incidents, better protection for employees' health and safety, and an improved financial bottom-line.

[Manual Pallet Jack Safety Online Training \[E,S\] \[2019\]](#)

A manual pallet jack allows a single worker to move a palletized load around a workplace easily and efficiently by "muscle power" alone. But as with all material handling equipment, when a pallet jack is misused it can create serious workplace hazards, cause severe injuries and even result in fatalities.

[Mark Standifer's Electrical Safety Briefing Interactive Online Training \[E,S\]](#)

As a survivor of an arc flash incident, Mark knows the pain and suffering associated with electrical and arc flash injuries. In this live presentation, he stresses the importance of thinking about what we are doing and being aware of all shock and burn hazards when performing electrical job tasks. Mark also makes the point that we must always wear the PPE and FR rated clothing required by the NFPA 70E to protect ourselves from any mistakes that we may make.

[Materials Handling Safety Interactive Training \[E,S\] \[2017\]](#)

"Materials handling" is how the things that people need get to where they're needed, on time and intact. And these activities can be dangerous. Every year, thousands of workers are killed or injured while moving, stacking and storing materials. But these accidents don't have to happen. "Materials Handling Safety" products from Atlantic Training discuss the hazards that employees are likely to encounter and explain the work practices and equipment they can use to control or eliminate these hazards.

[Mobile Elevating Work Platforms: Safe Use and Requirements Online Interactive Training \[E\] \[2020\]](#)

This program reviews the important changes in the new standards and discusses the basic safe work practices platform operators must follow to prevent accidents and injuries.

[Motorized Pallet Truck Safety Online Training \[E,S\] \[2019\]](#)

Pallet trucks are more agile and easier to handle than a forklift. And when palletized loads need to be moved around a workplace, "walkies" and "walkie riders" can do a great job. But as with all material handling equipment, pallet trucks can create serious hazards if they're misused, leading to severe injuries and even fatalities.

[Move It Safely: Avoiding Injury While Moving Materials Interactive Training \[E,S\] \[2013\]](#)

Two of the main causes of injuries to material handling workers are attempting to show off to their co-workers and not wanting to take time to get the proper equipment or ask for help. This leads to workers struggling to lift and carry materials which are too heavy to be moved safely.

[My Precious Eyes - The Gory Story Interactive Online Training \[E\] \[2005\]](#)

My Precious Eyes - The Gory Story Details

My Precious Eyes - The Gory Story program will increase your safety awareness. This program focuses on increasing safety awareness on one of the most basic topics in the safety industry - eye injury prevention. We take a look at what contributes to eye injuries, how they can be prevented, better training and education. This film will make a lasting impression since we will show you things you need to know about your precious eyes.

[New Hire Safety Essentials Interactive Training \[E,S\] \[2017\]](#)

All employees should be aware that their workplace contains hazards that can cause injury or death if not controlled or avoided, but new hires might not be fully aware of these hazards. Thus, safety training provides the information, procedures and protective equipment necessary to prevent injuries. Taking the time to do the job correctly and being aware of their surroundings help workers make it home safe at the end of each shift.

[New OSHA Safety Regulations for Cranes and Derricks in Construction Online Training \[E\] \[2010\]](#)

In response to growing concerns over crane safety, Occupational Safety & Health Administration (OSHA) recently released new crane and derrick safety standards. The rules will affect more than 4.8 million employees of crane and construction companies nationwide. This program will elaborate on the new standards and the employers' responsibilities.

[Office Ergonomics Interactive Training \[E,S\] \[2021\]](#)

Atlantic Training's Office Ergonomics video program addresses how to recognize ergonomic problems, the potential of adverse effects, and practical solutions employees can use to help deal with ergonomic problems in the office.

[Office Safety Interactive Training \[E,S\] \[2021\]](#)

Atlantic Training's Office Safety video Program shows employees what hazards exist in office environments, and how important it is to use good safety practices as they go about their work.

[Office Safety Interactive Training \[E,S\] \[2016\]](#)

[One Will Die: The John Martin Story - French Online Interactive Training \[E,S\]](#)

A true story about attitudes, behaviors and consequences, this program contains valuable safety lessons for any organization and drives home the importance of developing a true culture of safety.

[Operating A Telehandler Safely interactive Online Training \[E\] \[2011\]](#)

The telehandler can lift up to 10,000 pounds and extend outwards 30 to 40 feet. They can tilt the load lift or right to balance the load equally or to align the load to where they can precisely set down or dump the load. The telehandler operator must be competent in

[Operating CMVs: What Management Needs to Know Online Course \[E\]](#)

This course, developed in conjunction with the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), covers the regulations in Part 392 of the Federal Motor Carrier Safety Regulations (FMCSR): Driving Commercial Motor Vehicles (CMVs). This course outlines the minimum regulatory requirements for driving commercial motor vehicles.

[Operating Order Selectors Safely Interactive Training \[E,S\]](#)

This program examines some common hazards posed by the operation of order selectors and how to control these hazards through safe operating practices.

[Orientation to Laboratory Safety Interactive Training \[E\] \[2014\]](#)

Atlantic's Orientation to Laboratory Safety video Program shows both new employees and seasoned veterans the importance of safety in the laboratory... as well as reviews the OSHA regulations and good safety practices that apply to laboratory environments.

[Orientation: Safety in the Workplace Interactive Online Training \[E,S\] \[2022\]](#)

Federal law entitles all employees to a safe workplace. A safe working environment is defined as one that is "free from recognized hazards that are causing or are likely to cause death or serious physical harm to ... employees." In this training, you are exposed to common OSHA-recognized injury, illness, and fatality categories. You will also explore examples of other sources of harm that may not immediately fall under OSHA's General Duty Clause.

[OSHA 10 Hr Construction Interactive Online Training \[E\]](#)

OSHA 10 Hour Construction training sets the cornerstone for a safe and productive construction site. Meet compliance and regulatory needs and ensure that your construction workforce has been properly trained with Online OSHA 10 training from Atlantic! Upon completion, students will receive an OSHA course completion certificate.

[OSHA 10 Hr General Interactive Online Training \[E\]](#)

Meet regulatory and compliance needs without travel costs, scheduling issues or lost productivity. Consistently train all of your workers globally, any shift, any day, and any time using Online 10 Hour training courses from Atlantic Training! Upon completion, students will receive an OSHA course completion card. OSHA Hour training provides the following benefits: Helps prevent costly accidents, incidents and OSHA fines at your site. Course completion cards demonstrate that you are in compliance with all OSHA standards

[OSHA 30 Hr Construction Interactive Online Training \[E\]](#)

OSHA 30 Hour Construction training sets the cornerstone for a safe and productive construction site. Meet compliance and regulatory needs and ensure that your construction workforce has been properly trained with Online OSHA 30 training from Atlantic! Upon completion, students will receive an OSHA course completion certificate.

[OSHA 30 Hr General Interactive Online Training \[E\]](#)

Meet regulatory and compliance needs without travel costs, scheduling issues or lost productivity. Consistently train all of your workers globally, any shift, any day, and any time using Online 30 Hour training courses from Atlantic Training! Upon completion, students will receive an OSHA course completion card. OSHA Hour training provides the following benefits: Helps prevent costly accidents, incidents and OSHA fines at your site. Course completion cards demonstrate that you are in compliance with all OSHA standards

[OSHA Formaldehyde Standard Interactive Training \[E\] \[2014\]](#)

Atlantic's The OSHA Formaldehyde Standard video Program provides training that is required by this standard, focusing on the rules and procedures that the standard establishes for working with this potentially dangerous chemical.

[OSHA Record Keeping for Employees Interactive Training \[E,S\] \[2019\]](#)

Atlantic's OSHA Recordkeeping for Employees video Program helps facilities comply with OSHA's Recordkeeping regulation (29 CFR Part 1904). It shows employees actual workplace incidents that demonstrate how to report accidents and what information they need to furnish. This program can be used in conjunction with the Atlantic's OSHA Recordkeeping for Managers and Supervisors video program to train all levels of personnel and provide them with a common base of understanding about recordkeeping requirements.

[OSHA Recordkeeping for Managers and Supervisors Interactive Training \[E,S\] \[2019\]](#)

Atlantic's OSHA Recordkeeping for Managers and Supervisors video Program helps facilities comply with OSHA's Recordkeeping regulation (29 CFR Part 1904). It covers the details of the regulation's requirements and shows actual workplace incidents that demonstrate what a manager's responsibilities are in documenting and reporting recordable accidents. The program can be used in conjunction with Atlantic's video program OSHA Recordkeeping for Employees to train workers at all levels, and provide them with a common base of understanding about OSHA's Recordkeeping requirements.

[OSHA's Top 10 Violations Interactive Online Training \[E,S\] \[2015\]](#)

[Overhead Pendant Hoist Safety \(Machinery\) Online Interactive Training \[E,S\] \[2008\]](#)

Overhead Pendant Hoist Safety program will focus on overhead rail mounted hoists. Many organizations make use of overhead or also known as pendant hoists. This versatile equipment is typically used to safely maneuver heavy loads around shops, treatment plants, pump stations, and other locations. For the purpose of this short video, we will be focusing on overhead rail mounted hoists. Of these types of hoists, some of the most common operating systems are electric, pneumatic, and hand operated chain hoists.

[Overhead Pendant Hoist Safety - Manufacturing Online Interactive Training \[E,S\] \[2008\]](#)

The overhead pendant hoist is used to safely maneuver heavy loads around shops, treatment plants, pump stations and other locations. This program will focus on overhead rail mounted hoists. These hoist operating systems are electric, pneumatic and hand-operated chain hoists.

[Overhead Pendant Hoist Safety Online Interactive Training \[E,S\] \[2008\]](#)

The overhead pendant hoist is used to safely maneuver heavy loads around shops, treatment plants, pump stations and other locations. This program will focus on overhead rail mounted hoists. These hoist operating systems are electric, pneumatic and hand-operated chain hoists.

[Oxygen Acetylene Welding And Cutting Safety Interactive Online Training \[E\] \[2011\]](#)

There is a wide range of potential hazards when using welding and cutting equipment. This training program is designed to review basic safety procedures for oxygen-acetylene welders. This program concentrates on the equipment and not on other hazards associated with welding.

[Patient Decontamination Interactive Training by Efilm \[E\] \[2007\]](#)

This course explains the importance of hospital decontamination plans for large numbers of casualties in the event of a major terrorist, hazmat or natural catastrophe resulting in contaminated patients. Without a plan, hospitals risk contamination of staff, patients and the facility. This program, which follows the Joint Commission's accreditation standards for decontamination and emergency planning, outlines the process of quickly mobilizing a hospital decon team. It is ideal for training new decon teams as well as for refresher training.

[Patient Handling Interactive Online Training \[E,S\] \[2020\]](#)

Caring for patients in a healthcare environment can require nurses, aides, orderlies and other caregivers to lift as much as four thousand pounds during a typical shift. No wonder they're twice as likely to suffer musculoskeletal injuries on the job as employees in other industries. But these injuries don't have to occur.

[Pedestrian Safety in Industry Online Training \[E\] \[2000\]](#)

Employees can easily recognize the hazards associated with dangerous operations such as welding, machine operation and electrical work, but they rarely think about the hazards all employees face as pedestrians. This video shows pedestrians the precautions they must take to avoid injuries.

[Performance Reviews Online Interactive Training \[E\]](#)

Do you know how you are performing your responsibilities or how your boss thinks you are performing your responsibilities? If you don't know right this minute how you are doing, something is wrong. It is important for the supervisor to let employees know what is expected of them and provide them with feedback on their performance

[Personal Fall Arrest Systems Interactive Training \[E\] \[2020\]](#)

This program will provide viewers with detailed safety information related to their personal fall arrest system.

[Personal Protective Equipment in Construction Environments PPE Interactive Training \[E,S\] \[2016\]](#)

"On-the-job" injuries affect all types of people doing all types of work. Each year over 1,000,000 workers are injured... at a cost to employers of over \$100 billion annually. However, studies have shown that the great majority of these workplace injuries could have been prevented if proper safety procedures and workplace practices had been followed.

[Planning for Laboratory Emergencies Interactive Training \[E\] \[2014\]](#)

Atlantic's Planning for Laboratory Emergencies video Program discusses how to minimize damage and prevent injuries if a laboratory emergency should occur.

[PowerLift: Lifting Techniques For A Healthy Back Online Interactive Training \[E\] \[2017\]](#)

Most workers have been instructed to lift objects safely by using the "old way" of lifting; unfortunately, this method contains many flaws that result in unnecessary and very harmful stress on our backs. Lifting while balancing on the balls of our feet, too much bending of the knees, leverage that places excessive force on the lower back and overextending the spine beyond its base of support are all problems associated with this approach.

[PPE: Are You Covered Interactive Online Training \[E\] \[2018\]](#)

Employers and employees are required to utilize the right type of PPE for the job they are performing. Understanding what PPE (Personal Protective Equipment) is, how it's used when to use it and the different kinds of PPE available will help prevent injuries and keep your work environment safer.

[PPE: It's Your Call Interactive Training \[E,S\] \[2020\]](#)

[PPE: Its Your Choice Online Training \[E,S\] \[2020\]](#)

[Preventing Contamination in the Laboratory Interactive Training \[E\] \[2014\]](#)

Atlantic's Preventing Contamination in the Laboratory Program emphasizes the need to recognize situations that could lead to contamination, and discusses what can be done to prevent contamination from occurring.

[Preventing Sexual and Other Forms of Harassment for California Employees Interactive Training Video \[E\] \[2020\]](#)

Now all employees in the state of California need to be trained on how to prevent sexual and other types of harassment in the workplace, not just managers and supervisors...and the first training deadline, January 1, 2021, is fast approaching. The new course "Preventing Sexual and Other Forms of Harassment for California Employees" satisfies this new training requirement, helps employees recognize sexual and other forms of harassment, and discusses how to deal with them.

[Preventing Sexual Harassment for Managers and Supervisors Interactive Online Training \[E\] \[2020\]](#)

Atlantic Training's "Preventing Sexual Harassment... for Managers and Supervisors" training products provide them with the information they need to identify situations that could lead to sexual harassment, help prevent harassment in their departments, and deal with it effectively if it does occur.

[Preventing Slips and Falls In Restaurants Online Interactive Training \[E\] \[2009\]](#)

Preventing Slips and Falls In Restaurants Details

Slips and falls can occur in all industries. These accidents occur because people are not paying attention. This program will focus on the causes, prevention and behaviors.

[Preventing The Spread Of Contagious Illness Interactive Online Training \[E,S\] \[2009\]](#)

This informative program, which includes information about seasonal flu, avian flu, SARS and MRSA in addition to swine flu, explains the origins and symptoms of these illnesses as well as the general hygiene and prevention measures required to prevent spreading and contracting all contagious illnesses. The video stresses prevention and the personal responsibility required to avoid spreading an illness or infection. Other topics include decontaminating work areas, special MRSA precautions, responding to a potential infection, medical diagnosis and treatment of contagious illnesses, measures to take at home once you are infected and how to prepare for and respond to a pandemic of an illness.

[Propane Safety Online Interactive Training \[E\] \[2008\]](#)

This program provides basic knowledge of proper cylinder refueling operations by vehicle operators with an emphasis on safety.

[Protecting Yourself Against COVID-19 & Other Contagious Illnesses Interactive Online Training \[E\] \[2020\]](#)

Every year, like clockwork, the cold and flu season arrives and people all over the globe fall ill after becoming infected with a viral contagious illness. New types of coronaviruses and influenza viruses can periodically manifest and begin spreading around the world, leading to local, regional, and global outbreaks of illness. The most recent example of this is the outbreak of "Coronavirus Disease 2019," or COVID-19, that started in Wuhan, China. Your health and wellness, as well as the health and wellness of your co-workers, friends, and loved ones, depends on your ability to control the spread of COVID-19 and other strains of corona and influenza viruses.

[Radiation Safety \(Universities\) Interactive Training \[E\]](#)

Radiation is a critical part of safety program. A Radiation Safety Plan includes the basics of training, engineering controls, personal protective equipment and work practices designed for protection. This program covers topics on radiation safety and how you can use this information to stay safe and healthy in your work environment.

[RCRA Hazardous Waste Final Rule: The E-Manifest System And Other Key Revisions Interactive Training \[E\] \[2019\]](#)

The EPA's recently updated RCRA rule is designed to make hazardous waste handling regulations easier to understand and to facilitate better compliance. This program reviews the important revisions mandated in these latest guidelines. The new E-Manifest system is explained in detail to show viewers how to provide more accurate and timely tracking information on hazardous waste shipments electronically instead of using outdated paper forms. The EPA's goal is to phase out written manifests within the next four years, so it is critical that your employees understand how the new system works.

[RCRA Training For Hazardous Waste Generators Interactive Online Training \[E\] \[2010\]](#)

This program provides an overview of the responsibilities of hazardous waste generators and their employees as required by the Resource Conservation Recovery Act (RCRA). RCRA is a federal law enacted in 1976 to address the treatment, storage and disposal of hazardous waste and your company helps protect the environment by following its rules and guidelines.

[Reach Truck Safety Interactive Training \[E,S\] \[2017\]](#)

[Real Story About Hand Washing and Bacteria Interactive Online Training \[E\]](#)

According to health experts, washing your hands reduces the spread of viruses and other organisms that cause disease.

This program covers the subjects of hand washing, sanitizing, gloves, clothing and bacteria. Melody Glave, training consultant, is featured in this film.

[Real Story About Hand Washing and Bacteria Online Interactive Training \[E\] \[2006\]](#)

According to health experts, washing your hands reduces the spread of viruses and other organisms that cause disease. This program covers the subjects of hand washing, sanitizing, gloves, clothing and bacteria. Melody Glave, training consultant, is featured in this film.

[Rear Loader Safety and Operations Interactive Online Training \[E\] \[2007\]](#)

Rear loaders are designed for speed of operation, safety and ease of loading. Rear loaders require a vehicle pre-trip safety and operational inspection, the same as other vehicles. The operator must have a good attitude about accident prevention and vehicle operating procedures. The program focuses on vehicle operation with emphasis on safety.

[Remote Worker: Safety, Health and Security Interactive Training Video \[E\] \[2020\]](#)

In today's technology-driven and ever-changing world, the ability and necessity of working from home or at a remote location is on the rise. Generally referred to as "remote work," this working arrangement commonly finds workers performing their job duties from a "home office" or a "home-based worksite." There are many benefits of remote work for both the employee and employer; however, it's important that all parties understand their responsibilities related to the safety and health of remote workers as well as the cyber security of their operations.

[Respiratory Protection and Safety Interactive Training \[E,S\] \[2016\]](#)

Atlantic's Respiratory Protection and Safety video Program has been created specifically to involve employees in the process of understanding respiratory hazards and to help facilities in fulfilling OSHA's Respiratory Standards (29 CFR,1910.103, 134) training requirements. The video program includes OSHA and NIOSH changes to their respiratory protection training requirements, such as fit testing protocols and cleaning/disinfecting procedures. The video program shows examples of the N class respirators and other respirators being used in a variety of settings.

[Respiratory Protection: The Facts Interactive Training \[E,S\] \[2017\]](#)

Atlantic's Respiratory Protection and Safety video Program has been created specifically to involve employees in the process of understanding respiratory hazards and to help facilities in fulfilling OSHA's Respiratory Standards (29 CFR,1910.103, 134) training requirements. The video program includes OSHA and NIOSH changes to their respiratory protection training requirements, such as fit testing protocols and cleaning/disinfecting procedures. The video program shows examples of the N class respirators and other respirators being used in a variety of settings.

[Rest Stop Routine Interactive Online Training \[E\] \[2009\]](#)

Working in the trucking industry increases a person's risk for developing musculoskeletal problems and other health problems due to the long hours in the same sedentary position. The work posture required in this industry is forward head and hunched shoulders. This program offers various exercises for specific areas of the body that are affected by sitting for long periods of time in the same position.

[Restaurant - Sanitation And Health Food Service Workers Interactive Online Training \[E\] \[2006\]](#)

Sanitation And Health For Food Service Workers - Food borne illness is quite prevalent in the home, restaurants, hotels, retail establishments, even school cafeterias. Through someone's carelessness, micro-organisms were allowed to get on the food such as chicken, beef, pork, and a variety of other foods.

[Returning to Work During the Coronavirus Pandemic For Employees Interactive Training \[E\] \[2020\]](#)

[Returning to Work During the Coronavirus Pandemic For Managers and Supervisors Interactive Training \[E\] \[2020\]](#)

[Rigging Safety in Industrial & Construction Environments Interactive Training \[E,S\] \[2019\]](#)

Atlantic's training products on "Rigging Safety in Industrial and Construction Environments" review the hazards associated with rigging and moving loads, and discuss the equipment and safe work practices that employees should use to avoid them.

[Roll Offs and Safety Operations Interactive Online Training \[E\] \[2002\]](#)

Roll Offs and Safety Operations Details

Roll offs carry a large load and are a large part of business. They have the potential of causing serious injuries or property damage if not handled properly. It is important to continue improving safety awareness and accident prevention. This program covers the operation of roll offs with emphasis on safety.

[Safe Driving Practices \[E\]](#)

Motor vehicle crashes are the leading cause of accidental deaths and injuries in the United States. Many businesses and agencies have recognized the direct benefits of safe driving programs, not only in the number of lives saved and injuries reduced, but also in the decreased hospitalization costs, lost production time, vehicle downtime, and insurance rates. This course will help you recognize what it means to be a "safe" driver and will help you identify areas you may need to focus on to increase your own safe driving skills. Using safe choices and habits, you will learn how to make good choices for safety and how to develop good habits to avoid the bad choices other drivers may make.

[Safe Driving Practices for CMV Drivers \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), covers the Defensive Driving portion of the Federal Motor Carrier Safety Administration (FMCSA) Accident Countermeasures Manual. Employing defensive driving techniques makes every driver on the roadway safer. This course provides driving tips and maintenance checks to help CMV drivers use defensive driving techniques while operating CMVs.

[Safe Electrical Work Practices & The 2018 NFPA 70E Online Interactive Training \[E\]](#)

This video explains the important changes and updates contained in the 2018 NFPA 70E and explains how electrical workers can be protected from both the shock hazard and arc flash hazard presented by exposed energized parts. The 2018 NFPA 70E places an emphasis on controlling risk. As such, the electrical safety program, the shock hazard assessment, and the arc flash hazard assessment must now consider the likelihood as well as the severity of injury related to an electrical hazard. When controlling risk, the 2018 regulation now requires that a specific hierarchy of controls be followed.

[Safe Handling of Laboratory Glassware Interactive Training \[E\] \[2014\]](#)

Atlantic's Safe Handling of Laboratory Glassware video Program discusses the nature of various types of glassware, and the problems it can cause... as well as the need for employees to use and maintain laboratory glassware safely.

[Safe Lifting in Construction Environments Interactive Training \[E,S\] \[2022\]](#)

Atlantic's Safe Lifting in Construction Environments video program provides the information employees need to protect their backs when they are lifting and carrying.

[Safe Lifting in Food Processing and Handling Environments Interactive Online Training \[E\] \[2022\]](#)

Atlantic Training's course on "Safe Lifting in Food Processing and Handling Environments" discusses how lifting and carrying things can affect the back, and how employees can use safe lifting techniques to help them avoid back injuries in a food processing or handling facility.

[Safe Lifting in Healthcare Environments: for Medical Personnel Interactive Online Training \[E\] \[2022\]](#)

Atlantic Training's course on "Safe Lifting in Healthcare Environments: for Medical Personnel" discusses how lifting and carrying things can affect the back, and how medical personnel can use safe lifting techniques to help them avoid back injuries in a healthcare facility.

[Safe Lifting in Healthcare Environments: for Office and Maintenance Personnel Interactive Online Training \[E\] \[2022\]](#)

Atlantic Training's course on "Safe Lifting in Healthcare Environments: for Office and Maintenance Personnel" discusses how lifting and carrying things can affect the back, and how non-medical personnel can use safe lifting techniques to help them avoid back injuries in a healthcare facility.

[Safe Lifting in Industrial Environments Interactive Online Training \[E\] \[2022\]](#)

Atlantic Training's course on "Safe Lifting in Industrial Environments" discusses how lifting and carrying things can affect the back, and how employees can use safe lifting techniques to help them avoid back injuries in an industrial facility.

[Safe Lifting in Office Environments Interactive Online Training \[E\] \[2022\]](#)

Atlantic Training's course on "Safe Lifting in Office Environments" discusses how lifting and carrying things can affect the back, and how employees can use safe lifting techniques to help them avoid back injuries in the office.

[Safe Lifting in Transportation and Warehouse Environments Interactive Online Training \[E\] \[2022\]](#)

Atlantic Training's course on "Safe Lifting in Transportation and Warehouse Environments" discusses how lifting and carrying things can affect the back, and how employees can use safe lifting techniques to help them avoid back injuries in transportation or warehouse facilities.

[Safe Lifting Interactive Training \[E,S\] \[2022\]](#)

Atlantic's Safe Lifting video Program provides the information employees need to protect their backs when they are lifting and carrying.

[Safe Operation of Cranes and Hoists \(Machinery\) Online Training \[E\] \[2008\]](#)

There are a variety of cranes, hoists and rigging devices used for lifting and moving material. It is important to use caution and exercise good judgment when working around or near this equipment. This program emphasizes the safety procedures when operating cranes and hoists.

[Safe Operation Of Scissor And Boom Lifts - French Online Interactive Training \[E\] \[2006\]](#)

This video discusses the procedures lift operators must follow to prevent these types of incidents.

[Safe Use And Operation Of Industrial Cranes - French Online Interactive Training \[E\]](#)

[Safety 101: OSHAs Top 10 Interactive Online Training \[E,S\] \[2022\]](#)

Whether your career philosophy is that you live to work, or if you work to live, your health and safety should never be sacrificed for productivity. Whatever your position – laborer, supervisor, technician, safety officer, machine operator, or any other role – you must become aware of the hazards involved in your work and the strategies required to ensure safe work and respond to emergencies. Every task comes with its own set of risks. Think about your work environment. What could go wrong?

[Safety and The Supervisor Interactive Online Training \[E\] \[2009\]](#)

Safety and the Supervisor program includes comments from experts in the field of safety. Emphasis is on the responsibility of the supervisor, counseling and accident investigation. As a supervisor, you are responsible for accident reports, safety training, making sure employees follow safety rules and wear personal protective equipment. Supervisors must know company policies and procedures and train employees. The supervisor is the only person having direct control over employees therefore; the supervisor is absolutely responsible and accountable for safety.

[Safety Audits Interactive Training \[E,S\] \[2004\]](#)

Atlantic's Safety Audits video Program informs employees about the goals of a Safety Audit, and how all workers should become involved.

[Safety Bob's Comprehensive Construction Safety Orientation Interactive Online Training \[E,S\] \[2013\]](#)

Construction work is very dangerous, as nearly 1,000 workers are killed and thousands of others are injured on construction jobsites each year. While there have been many safety improvements over the years to control the hazards that contribute to these incidents, new and inexperienced workers still get hurt on the jobsite way too often. This program stresses the point that these workers must be responsible for their own personal safety. Construction Safety Specialist Bob Synnett discusses the hazards of construction work and what actions construction workers can take to avoid mishaps on the job.

[Safety Housekeeping and Accident Prevention Online Training Course \[E,S\] \[2017\]](#)

Workplace accidents cause nearly 5,000 deaths and 3 million injuries every year. But many of these incidents could have been prevented. Good housekeeping and safety practices can significantly reduce accidents and injuries in any type of work environment. Employees need to understand how to maintain a neat and orderly work environment and develop other good safety habits that will help them to create a safer workplace for everyone. Atlantic's updated Safety Housekeeping and Accident Prevention training products provide workers with the information they need to recognize on-the-job hazards and explain how they can prevent them.

[Safety Leadership: An Essential Safety Element Interactive Online Training \[E,S\] \[2017\]](#)

Every successful safety program is built on a foundation of essential elements. One such element is "Safety Leadership." Safety Leadership can be defined as "the influence of a person's words or actions on the safety decisions made by others." It's important to note that safety leadership comes from everyone, including the newest employee, the experienced worker, the front line supervisor, and the plant manager. Safety leaders speak up and do not condone unsafe acts, nor do they take shortcuts to make a job easier or faster. Effective safety leadership must also include discipline and consistent rules enforcement from managers and supervisors. It's also important to understand that Safety Leaders don't have to be vocal. The quiet leadership exhibited by workers who always follow the safety rules also has a powerful effect.

[Safety on or Near Water Streaming Interactive Course \[E\] \[2010\]](#)

Safety on or Near Water Details

Safety on or Near Water video discusses some of the many hazards of working on or near water. Some of these hazards can include drowning, slips and falls, personal floatation, electrical shock, and more.

[Safety Orientation & Awareness: Industrial Environment Interactive Online Training \[E,S\] \[2016\]](#)

[Safety Orientation \(Waste Management\) Interactive Online Training \[E\] \[2010\]](#)

Accidents are caused by unsafe acts of people. It is important that you take an active part in protecting yourself and everyone around you. Safety is everyone's responsibility and we must depend on one another.

[Safety Orientation in Construction Environments Interactive Training \[E,S\] \[2018\]](#)

Every year, on-the-job accidents cause millions of painful and sometimes debilitating injuries, and cost American businesses almost \$90 billion dollars in medical bills, lost wages and lost productivity. But most of these incidents are preventable. Atlantic's "Safety Orientation in Construction Environments" products discuss common hazards that can be encountered on a job site and the safe practices and equipment that workers can use to avoid injuries.

[Safety Showers & Eye Washes in the Laboratory Interactive Training \[E\] \[2014\]](#)

Atlantic's Safety Showers and Eye Washes in the Laboratory video Program reviews the correct ways to use this equipment, and emphasizes the need for quick action after a chemical splash or spill in a laboratory.

[Safety Showers & Eye Washes Interactive Training \[E,S\] \[2020\]](#)

Atlantic's Safety Showers and Eye Washes video Program reviews for employees situations where safety showers and eye washes should be used, as well as how to properly use them.

[Safety's Top 10 Causes of Workplace Injury Online Training \[E,S\] \[2010\]](#)

While the top 10 lists you see in magazines and on late night talk shows are created to get laughs, the list in this program focuses on a subject that is no laughing matter: causes of workplace injuries. With disturbing regularity, thousands of employees and contractors are injured or killed while on the job each year. Some people make the mistake of calling these types of incidents "accidents" and chalk them up to just "bad luck" or just being "in the wrong place at the wrong time," but safety professionals know better.

[Sanitation For Cafeteria And Food Service Areas Interactive Online Training \[E\] \[2005\]](#)

Sanitation For Cafeteria and Food Service Areas Details

Sanitation for Cafeteria and Food Service Areas program will focus on cleanliness, sanitation, food temperatures, and good housekeeping. Foodborne illness is quite prevalent in the home, restaurants, hotels, retail establishments, even school cafeterias. Through someone's carelessness, micro organisms were allowed to get on the food, which can occur with chicken, beef, pork, and a variety of other foods.

[Scissor Lifts in Industrial and Construction Environments Interactive Training \[E,S\] \[2022\]](#)

Getting to high places can be difficult in many work environments. Sometimes a ladder is all you need. But in some situations, you will have to use other equipment to do jobs that require you to be elevated while you work. Whether you're on a construction site, inside a warehouse or performing a maintenance job "up high", scissor lifts can help you to reach high places when a ladder just isn't enough.

[Self Protection Interactive Training \[E\] \[2007\]](#)

Self Protection Training Video

It describes how to select the proper type of Personal Protective Equipment (PPE) to use during a mass casualty situation in order to protect healthcare workers from exposure to contaminated patients. It explains about the different choices in PPE and the issues involved in selecting the correct ensemble.

[Self-Contained Breathing Apparatus SCBA Interactive Training \[E\] \[2013\]](#)

Self-Contained Breathing Apparatus SCBA Details

Self-Contained Breathing Apparatus (SCBA) (Safety Video)

A self contained breathing apparatus, or SCBA, by employees working in IDLH (immediate danger to life and health) atmosphere. An SCBA typically has three main components: a high-pressure tank, a pressure regulator, and an inhalation connection (mouthpiece, mouth mask or face mask), connected together and mounted to a carrying frame. This video discusses several topics related to working with an SCBA such as SCBA masks, pressure gauges, air tanks, regulators, adjustment straps, facial hair regulations, fit testing and SCBA overview.

Keywords: SCBA, Self-Contained Breathing Apparatus, SCBA face masks, pressure gauges, air tanks, regulators, adjustment straps, facial hair regulations, fit testing and SCBA overview

[Sexual Harassment for Employees Interactive Online Training \[E,S\] \[2018\]](#)

Sexual Harassment is an unfortunate situation for any employee to deal with in the workplace. Nobody wants to feel uncomfortable at work. With Atlantic Training's premier safety video on Sexual Harassment for Employees, your personnel can learn how to deal with these situations. Learn about what constitutes as sexual harassment, what an employee should do if they are feeling harassed, and the measures to take when reporting the harassment. At the end of the day, all employees have the right to a healthy, safe, and harassment-free work environment.

[Sexual Harassment for Managers Interactive Online Training \[E,S\] \[2018\]](#)

Sexual harassment in the workplace environment is uncomfortable and uncalled for situation. It can happen with managers and supervisors as well as employees. With Atlantic Training's premier safety video Sexual Harassment for Managers, your management team will learn what sexual harassment is, how to deal with it, and how to report it. They'll learn what Quid-Pro-Quo is and what to do when an employee comes forward.

[Shattered: The Jeff Walters Story Interactive Online Training \[E,S\] \[2010\]](#)

This program combines testimonials, a live presentation and reenactments to teach important safety lessons! Jeff Walters, a young newlywed, was more interested in earning the respect of his co-workers than being concerned for his own safety. He saw a broken limit switch on a 19-foot elevated conveyor as his opportunity to impress his co-workers with his abilities and willingness to do whatever it takes to get a job done. After climbing the conveyor without doing a lockout or wearing fall protection, Jeff fell 19 feet to a concrete floor when the conveyor started unexpectedly.

[Shop Safety Interactive Training \[E,S\] \[2016\]](#)

[Short Service Employee For Gas And Oil Industry Safety Interactive Online Training \[E\] \[2013\]](#)

[Silica Safety in Industrial and Construction Environments Interactive Training \[E,S\] \[2018\]](#)

Atlantic's training products on "Silica Safety in Industrial and Construction Environments" explain the hazards that are associated with silica dust, review the OSHA standards for industry and construction, and show employees what they can do to protect themselves from silica dust on the job.

[Six Steps to Lockout/Tagout \(Micro\) Interactive Online Training \[E,S\] \[2019\]](#)

Engage and educate employees with our 5-minute Safety Shortcut program on The 6 Steps to Lockout/Tagout. Use this training for your next tailgate talk or weekly safety meeting.

[Skid Steer Safety Interactive Online Training \[E\] \[2009\]](#)

Skid steer equipment has become the number one workhorses for public works and construction. With trenchers, plows, grapples, buckets and hoes and hydraulic breakers as attachments, their versatility is limitless. Manufacturers of this equipment include Bobcat, John Deere, CAT, and New Holland to name a few. This equipment can stop on a dime, spin in circles, climb, dig and a variety of other tasks. As interesting as they are to operate, there are potential risks to the operator and those working around them.

[Skin Cancer Awareness Interactive Online Training \[E\]](#)

This program is designed to provide basic skin cancer awareness. Additionally, the goal is to reduce exposure of skin cancer to workers exposed to the sun or welding operations. The objective is to make workers aware of skin cancer, seek medical attention if warranted, conduct self and professional examinations of the skin and to eliminate or reduce the severity of skin cancer. Skin cancer can be life threatening, if not detected and treated early.

[Slips, Trips & Falls Interactive Online Training \[E,S\] \[2021\]](#)

Atlantic's Slips, Trips and Falls video Program shows employees the situations that can lead to slips, trips & falls, and what they can do to avoid or prevent these accidents.

[Slips, Trips and Falls in Construction Environments Interactive Training \[E,S\] \[2018\]](#)

The objective of Atlantic's Safe Lifting in Construction Environments Construction Safety Kit is to provide the information employees need to protect their backs when they are lifting and carrying.

[Slips, Trips And Falls Streaming Interactive Training \[E,S\] \[2008\]](#)

[Sodium and Calcium Hypochlorite Interactive Training \[E\] \[2008\]](#)

Sodium and calcium hypochlorite are widely used as a disinfectant in water and wastewater agencies. These products are commonly used as pool and spa disinfection products. These powerful agents kill bacteria and other pathogens such as viruses, parasites, and fungus that may be in the water supply. This program will cover the use, storage and safe use of sodium and calcium hypochlorite.

[SpotLight on Bloodborne Pathogens Engineering and Work Practice Controls Online Course \[E\]](#)

This course provides a spotlight on one topic of Bloodborne Pathogens - Engineering and Work Practice Controls.

[SpotLight on Bloodborne Pathogens: Infectious Diseases in the Workplace Online Course \[E\]](#)

This course provides a spotlight on one topic of Bloodborne Pathogens - infectious diseases in the workplace.

[Spotlight on Fire Safety: Emergency Action Plans Online Course \[E\]](#)

This course provides a spotlight on one topic of Fire Safety and Emergency Preparedness (General Industry) - Emergency Action Plans.

[SpotLight on GHS Hazard Communication: Labels Online Course \[E\]](#)

This course provides a spotlight on one topic of GHS Hazard Communication â€“ Labels.

[SpotLight on GHS Hazard Communication: Safety Data Sheets Online Course \[E\]](#)

This course provides a spotlight on one topic of GHS Hazard Communication â€“ Safety Data Sheets.

[Steel Erection \(Construction\) Online Course \[E\]](#)

The Occupational Safety and Health Administration (OSHA) designs and enforces standards to assure a safe work environment for America's workers. Because workers involved in steel erection face specific hazards, OSHA has developed standards to address and help minimize those hazards.

This course covers the OSHA Construction standards for employees involved in steel erection activities.

[Stormwater Pollution Prevention Plan General Awareness Online Interactive Training \[E\]](#)

When stormwater flows through chemical storage areas, areas of outside industrial activity, waste management areas and similar areas, it can pick up debris such as chemicals, fertilizers, fecal bacteria, pollutants and other hazardous materials. This now-contaminated stormwater can then flow untreated directly into nearby bodies of water used for swimming, drinking, recreation, and farming.

[Stress Management For Supervisors and Employees Online Training \[E\] \[2006\]](#)

Stress has become a very big problem in industry. One of the reasons why stress is a problem is because most people are unaware that they are experiencing stress until it becomes a problem. This program is hosted by Dr. Edward Sheldon who gives advice on how to handle stress on the job.

[Struck-By Hazards in Construction Environments Interactive Training \[E,S\] \[2017\]](#)

Struck-by accidents occur when a person is hit by a moving object. On construction sites this can include being hit on the head by a falling hammer, hit by particles being thrown from a grinder, hit by a truck that's backing up, or hit by a load of wallboard that's being hoisted. Struck-by accidents are one of the four top causes of fatalities in construction work and can result in serious injuries as well. But they don't have to happen. Atlantic Training's training products on Struck-By Hazards in Construction Environments provide the information employees need to recognize the struck-by hazards that are associated with construction tasks and take steps to avoid them before accidents happen.

[Sulfuric Acid And Hydrochloric Acid by Efilm Interactive Training \[E\] \[2005\]](#)

Valuable training for petroleum and other industrial personnel who may encounter hydrogen sulfide in their work, as well as for emergency responders.

[Supervisor and Manager Liability Interactive Online Training \[E\] \[2009\]](#)

Employee safety at work is of great importance. It is the law and there are penalties if a worker is injured. This program is for supervisors and managers and how to protect themselves from legal penalties and sanctions. Information also includes understanding the risk, liabilities, responsibilities and obligations.

[Supervisor and Performance Evaluations Online Interactive Training \[E\]](#)

[Supervisor Leadership Excellence - Team Building Interactive Online Training \[E\] \[2009\]](#)

This program has on camera professionals talking about their experiences in team building. A strong team requires a good game plan. Developing the competent team requires employees and supervisor to commit to the idea that it's essential to support each other. Supervisors who want to establish a team should first understand the group or teams social structure.

[Supervisor Leadership Excellence - Time Management Interactive Online Training \[E\] \[2009\]](#)

Time is a priceless commodity. Some people use it wisely, others squander it. You have more things to do than you think you can effectively handle. How can you be expected to perform all the responsibilities of your job without more help or more time? How you choose to spend your time is up to you.

[Supported Scaffolding Safety in Industrial and Construction Environments Online Training Course \[E,S\] \[2018\]](#)

Atlantic's "Supported Scaffolding Safety in Industrial and Construction Environments" courses discuss supported scaffolds, how they should be constructed, the hazards that are associated with them, the OSHA regulations that address these hazards and the equipment and procedures that employees should use to work with them safely.

[Suspended Scaffolding Safety in Construction Environments Interactive Training \[E,S\] \[2009\]](#)

Atlantic's Suspended Scaffolding Safety in Construction Environments video Program assists facilities of all types in complying with OSHA's Scaffolding regulation (29 CFR 1926.451), and helps employees understand the dangers of working with scaffolds, and how these risks can be minimized by knowing the correct ways to erect, maintain and use scaffolding equipment.

[Suspended Scaffolding Safety Interactive Training \[E,S\] \[2004\]](#)

Atlantic's Suspended Scaffolding Safety video Program assists facilities of all types in complying with OSHA's Scaffolding regulation (29 CFR 1926.451), and helps employees understand the dangers of working with scaffolds, and how these risks can be minimized by knowing the correct ways to erect, maintain and use scaffolding equipment.

[Take Safety Home: Preventing Off-Job Injuries Interactive Online Training \[E,S\] \[2009\]](#)

After working 25 years as a firefighter and paramedic, Martin Lesperance has treated thousands of injuries and medical emergencies. Now retired, Martin is a popular safety speaker, sharing his experiences with workers in order to prevent injuries. As a former EMT, Martin knows that the majority of injuries occur off the job and conducted this presentation in front of a live audience to encourage all workers to "take safety home."

[Take Time for Safety Interactive Online Training \[E,S\] \[2011\]](#)

In our busy lives, we are often faced with time-management choices. When given the chance, we must always choose safety over time savings, because rushing causes us to lose focus, skip steps, and make bad decisions. In fact, the time we spend staying safe is time well spent. In this program, workers learn the very real hazards associated with rushing and being in a hurry. Through various examples, viewers will learn to recognize the symptoms of becoming rushed, why "hurried working" is so dangerous and what steps they can take to stay safe. The program also makes the point that being in a hurry is not the real cause of incidents and injuries, but rather a symptom of poor planning, poor choices and poor time-management--all of which can be prevented by proper preparation and organization.

[Texas Regulations and FMCSR Exceptions for Intrastate Commerce Online Course \[E\]](#)

The Texas Department of Public Safety (DPS) adopted the Federal Motor Carrier Safety Regulations (FMCSRs) for commercial motor vehicle transportation within the State, with a few exceptions. This course covers the specific differences between the federal rules governing interstate commerce and the state rules for intrastate commerce in Texas.

[The Bed Bug Problem Online Interactive Course \[E\]](#)

The recent outbreak of bed bugs since World War II has sent a fear among apartment dwellers, college students and travelers the nation. Bed bugs resist many pesticides and spread quickly in certain mattress-heavy buildings such as hotels, dormitories and apartment complexes. Bed bugs carry no known disease and health departments do not consider it a public health threat. This program will focus on how bed bugs affect and gain access in dwellings, their biology, infestations, bites, feeding habits, and how to eliminate them.

[The Drug-Free Workplace Program: Lose The Drugs, Keep The People Interactive Online Training \[E,S\]](#)

Substance abuse affects approximately 10 percent of the adult population, the majority of which are employed and performing various types of jobs in workplaces throughout North America. Unfortunately, these substance abusers tend to have a negative impact on practically every aspect of their employers' organizations. Productivity, quality, safety, and morale are just a few critical areas negatively impacted when workers abuse drugs and alcohol. This program discusses the multitude of dangers associated with drug and alcohol abuse and the actions viewers should take if they suspect someone, including themselves, has a substance abuse problem.

[The Line Of Fire - French Online Interactive Training \[E,S\]](#)

This program discusses many workplace hazards and outlines general principles that can help employees prevent these hazards from causing serious injuries and deaths.

[The Line Of Fire Online Interactive Training \[E\]](#)

This program discusses many workplace hazards and outlines general principles that can help employees prevent these hazards from causing serious injuries and deaths.

[The Mark Standifer Story: Lessons Learned From an Arc Flash Tragedy Interactive Training \[E,S\] \[2004\]](#)

Mark Standifer received 2nd and 3rd degree burns over 40 percent of his body and was nearly killed when he was engulfed in an arc blast while performing an electrical task at a wastewater treatment plant. While installing relays on the door of a 13,800-volt switchgear, he made several crucial errors resulting in a tragedy that will affect Mark and his family for the rest of their lives.

[The Safety Supervisor: Orientation and Overview Interactive Training \[E,S\] \[2018\]](#)

[There's No Excuse For Unsafe Acts Interactive Online Training \[E,S\] \[2008\]](#)

Unsafe acts always have the potential to cause injury or death no matter the excuse or justification used to commit them. That's the theme of this fast-paced new program that stresses to viewers that they must put safety first in every job they perform by wearing proper protective equipment, following safe work practices, using the correct tool for the job and asking for assistance when unsure how to proceed safely. The video also underscores the point that injuries that result from making excuses to commit unsafe acts aren't accidents; they are the consequences of our purposely placing ourselves in harm's way.

[To The Point About Preventing Electric Shock Online Training \[E,S\]](#)

Your facility's plan to protect employees from electrical hazards combined with following shock prevention practices allows workers to stay safe when working with or near electricity. This program provides an overview of how interrupters work and explain the safe work practices workers can follow to prevent electric shock-related injuries and fatalities.

[To The Point About: Handling Materials Safely Online Interactive Training \[E\] \[2017\]](#)

Handling materials safely, whether by lifting and carrying objects by yourself or by moving them with mechanical devices such as hand trucks and forklifts, doesn't have to be difficult, but it does require effort and a good safety attitude. This program discusses the safe work practices workers must follow to prevent injuries and property damage while transporting loads throughout the workplace.

[To The Point About: Industrial Crane Safety Interactive Online Training \[E\]](#)

Cranes come in a wide variety of sizes, configurations and capacities to lift and transport various products and materials used in industry. Because of the serious hazards presented by crane operation, crane operators must be fully qualified and 100 percent committed to the safe operation of their crane. That is the purpose of this program--to review the safety rules, precautions and safe operating practices common to all cranes in order to help crane operators work safely with the specific cranes they operate.

[To The Point About: Lockout/Tagout - Canada Interactive Online Training \[E\]](#)

The unexpected starting of machines or other unplanned releases of hazardous energy can have devastating consequences. Controlling hazardous energy can prevent injuries and save lives. This program explains the procedures workers must follow to protect themselves during lockout operations.

[To The Point About: Respiratory Protection Interactive Online Training \[E\] \[2019\]](#)

Our workplace is full of hazards, hazards that can hurt us or kill us. Controlling these hazards and preventing injuries is the point of our safety and health program. One such hazard is presented by airborne contaminants that can cause lung damage, cancer and other serious conditions. The proper use of respiratory protection to defend against these hazards can prevent illnesses and save lives.

That is the point of our facility's Respiratory Protection program and that is the point of this program. So, pay close attention as we get to the point about Respiratory Protection.

[To The Point About: Safe Forklift Operation - Canada Interactive Online Training \[E\] \[2015\]](#)

Unsafe operation of forklifts often contributes to property damage and employee injuries. Ensuring that drivers operate forklifts in a safe manner can prevent injuries and save lives. This program reviews the proper operating procedures forklift operators must follow to keep themselves and their co-workers safe

[To The Point About: The Safe Use Of Compressed Gas Cylinders Interactive Online Training \[E\]](#)

Flammable or toxic contents, corrosive substances, gas leaks, unsafe transporting and handling techniques, improper hook up, and incorrect storage are all potential causes of injury and property damage related to compressed gas cylinders. Because of these dangers, workers who handle these containers must make it a point to remain focused on their job and take all necessary precautions to avoid mishaps.

This program discusses the safe work practices that should be followed when handling, transporting, securing, and storing compressed cylinders.

[To The Point About: The WHMIS Program and GHS - Canada Interactive Online Training \[E\]](#)

Various chemicals present many physical and health hazards that cause property damage or harm people. Protecting workers from exposure to hazardous chemicals can prevent injuries and illnesses. This program reviews the WHMIS Program and how employees can avoid chemical exposures.

[Tree Trimming Safety Online Interactive Training \[E\] \[2010\]](#)

Tree Trimming Safety (Public Agency) Details

Tree trimming requires a high level of training in order to work safely. The nature of tree trimming lends itself to many hazards. There is a potential for serious falls and the risk of coming in contact with energized utilities, falling trees, contacting poison ivy and even snakes. The supervisor is responsible for all the decisions affecting the crew.

[Trenching and Shoring Safety in Construction Environments Interactive Training \[E,S\] \[2016\]](#)

Twenty percent of workplace fatalities in the U.S. involve construction workers, but their chances of getting killed on the job more than double when they're working in a trench. An average of two employees are killed every month when the trench they're working in collapses on them. But many of these deaths and thousands of injuries can be prevented. Employees need to understand the hazards that can be encountered in trenching work as well as the OSHA regulations and safe work practices that can prevent accidents from occurring.

[Truck Mounted Articulating Knuckle Boom Cranes Interactive Training \[E\] \[2008\]](#)

Truck mounted articulating knuckle boom cranes are used to handle, deliver, and pick up a variety of loads. Loads include steel road plate, shoring, trench boxes, boats, vehicles, logs, iron K rail and much more. Poorly trained operators are the reason for many crane accidents in the industry.

[Tuberculosis in the Healthcare Environment Interactive Training \[E,S\] \[2016\]](#)

At one time, doctors thought they had almost stamped out tuberculosis as a serious health concern in the U.S., but the disease had an alarming resurgence in the 1980s. It is currently one of the most common infectious diseases in the world, and kills more than a million people every year. Healthcare employees are on the front lines in the fight against TB. They also have a significant risk of exposure to the disease. "Tuberculosis in the Healthcare Environment" from Atlantic can provide them with the latest information on the tuberculosis threat, the infection hazards they may encounter in their job and the steps they can take to avoid them.

[Unconscious Bias Streaming Online Interactive Training \[E,S\] \[2022\]](#)

"Unconscious bias" is not a phrase that everyone understands, and yet we all have them. The fact that we don't know we have them is what makes them "unconscious". "Unconscious biases" can result in bad decisions, damaged relationships with coworkers, and can even cost your company money. The course "Unconscious Bias" discusses how to figure out what your unconscious biases are, the effect they can have on your business, and what you can do to overcome them.

[Understanding & Controlling Ergonomic Risk Factors Interactive Online Training \[E,S\] \[2015\]](#)

Ergonomics can be complicated, but this program provides a simple explanation all employees can understand. Ergonomic controls are used in almost all workplaces to prevent musculoskeletal disorders (MSDs), also called cumulative trauma disorders or repetitive stress injuries. Workers often ignore the signs and symptoms of these disorders until a chronic condition has developed and they often don't know the measures they can take to prevent them.

[Understanding Disabilities Online Interactive Training \[E\]](#)

People with disabilities often face insensitivity that can make it difficult for them to inter-act with others. In some cases, the insensitivity arises when others don't understand the nature of the disability, or do not recognize it. Particularly in school environments, people with disabilities are often ostracized, teased or bullied. Learning to be sensitive to people with disabilities is an important part of tolerance toward others.

[Understanding People Online Interactive Training \[E\] \[2008\]](#)

Understanding People - A Supervisor's Perspective program is designed to provide an overview of how these relationships occur and the basic psychology of human behavior.

The most important aspect of leadership is the relationship developed between management and employees. This relationship determines the organization's efficiency, discipline, safety, security, productivity.

[Understanding Your Facility's Stormwater Pollution Prevention Plan \[E,S\]](#)

All employees need to know the overall scope of your organization's Stormwater Pollution Prevention Plan and the role each person plays in its success. Pollution spread by contaminated stormwater is a real problem and providing your employees with an understanding of your facility's plan is the purpose of this program.

[Understanding Your Facility's Stormwater Pollution Prevention Plan Interactive Training \[E,S\]](#)

All employees need to know the overall scope of your organization's Stormwater Pollution Prevention Plan and the role each person plays in its success. Pollution spread by contaminated stormwater is a real problem and providing your employees with an understanding of your facility's plan is the purpose of this program.

[Universal Precautions - Infection Control Procedures Online Training \[E,S\] \[2012\]](#)

Infection Control Procedures - Universal Precautions - Infection Control Procedures program addresses the procedures and accepted practices relating to infection exposure. Infections can be deadly they can destroy your health and certainly are hazards to avoid. With the proper precautions and information, you can reduce your chances of contracting and spreading infections. Certainly, the most deadly forms of infections are Hepatitis B and the AIDS viruses. Universal precautions to reduce infections is a well established program and there are other isolation precautions as identified in the Centers of Disease Control Guidelines for isolation precautions, but this program addresses the generally accepted practices related to all types of infections. Your responsibility is to know and understand your healthcare institution's policies and procedures and follow these rules according to these guidelines.

[Universal Waste Interactive Online Training \[E\] \[2023\]](#)

Disposing of hazardous waste can be a long and complicated process, but some hazardous waste materials are less harmful to people and the environment than others. So to make it easier to recycle these low-risk hazardous waste materials, the EPA created a different class of hazardous waste called "universal waste". And even though the criteria for their disposal aren't as strict as for other hazardous wastes, there are still processes and procedures that must be followed to ensure that they are handled and transported safely.

[Unsafe Acts - Human Behavior Details Interactive Training \[E\] \[2005\]](#)

According to the insurance industry, government agencies and the National Safety Council, most industrial accidents and injuries are attributed to unsafe acts of employees. Unsafe acts mean taking a shortcut in a work procedure, not following company safety rules and negligence. This program will focus on the types of unsafe acts by employees and corrective methods.

[Utility Cart Safety Online Interactive Training \[E\]](#)

Utility Cart Safety - Small electrical or gas-powered carts are used to perform a wide variety of tasks. These carts are commonly known as utility, industrial, service, electric carts. This program is designed to outline safety responsibilities on utility carts.

[Utility Crew Truck Safety Online Interactive Training \[E\] \[2008\]](#)

Utility crew trucks are used in organizations such as utilities, public agencies and construction. The crew truck grew from a Spartan truck for carrying tools. In addition to transporting a crew, the vehicle is equipped with attachments such as lifts and hoists, welding units, compressors, aerial lift devices and towing equipment. There are a variety of models, so it is important to following the manufacturer's operating manual. This program focuses on the safe operation of this vehicle.

[Valve Crew Safety Interactive Training \[E\] \[2008\]](#)

Valve maintenance tends to get little attention except when there is a main break. According to AWWA, every valve should be operated through a full cycle on a schedule designed to prevent a buildup of deposits. The valve crews are in charge of making sure valves will open and close when required and ensure water quality and adequate fire flows. Operating valves as it relates to Homeland Security since someone could compromise the water system. Organizations that take advantage of a valve maintenance program realize the benefits to them and the public.

[Vehicle Inspection and Maintenance for CMV Drivers \[E\]](#)

Even a safe driver cannot avoid accidents caused by mechanical failure; the best defense against this type of accident is prevention through performing the appropriate inspections. This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), focuses on the role of the CMV driver in keeping his or her CMV in safe working order by inspecting the vehicle at the start and end of every day. By properly inspecting the vehicle you drive, you will help keep other drivers and yourself safe on the highway. In this course, you will learn about the types of inspections that drivers need to complete, including what to do if defects or problems are uncovered during an inspection. In addition, you will see detailed requirements for some of the equipment covered in the driver vehicle inspections.

[Vehicle Inspection Interactive Training \[E\] \[2008\]](#)

The Department of Transportation requires truck drivers to perform pre-trip and post-trip inspections. Employees are legally responsible for daily inspection, safe operation and maintenance of all vehicles. This program shows the driver's responsibilities for vehicle inspection and a systematic procedure for conducting the inspection.

[Vehicle Inspection, Repair, and Maintenance Regulations Online Course \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), outlines the minimum regulatory requirements for inspection, repair, and maintenance with which all interstate motor carriers, employees, and drivers must comply.

[Vehicle Parts and Accessories Safety Regulations Online Course \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), outlines the minimum parts and accessories on a commercial motor vehicle required for safe operation.

[Venomous Snakes Interactive Online Training \[E\] \[2010\]](#)

There is a fear of snakes but having knowledge about them, your chances of an unpleasant encounter should be reduced and your personal safety eliminated. The creatures in this film fill an important niche in the environment so avoid killing snakes as they benefit all of us.

[Walking and Working Surfaces in Construction Environments Interactive Training \[E,S\] \[2022\]](#)

In the construction industry, falls cause the majority of on-the-job accidents, and result in more than three hundred workers being killed and thousands of disabling injuries each year. But most of them could have been prevented.

[Walking and Working Surfaces Interactive Training \[E,S\] \[2022\]](#)

We depend on the surfaces that we walk and work on for a lot of things...to provide the support we need to position ourselves properly, to help us use our muscles efficiently, to keep our balance and do our work safely. But we often take their condition for granted, and that is a big mistake.

[Walking Safely in Icy Conditions Online Training \[E,S\] \[2017\]](#)

There's a good chance that all of us will find ourselves walking on icy surfaces at one time or another. Even a small piece of ice can end up becoming the most dangerous piece of ice in the world if you're not careful. Not only do many people die each year when striking their heads on concrete after a slip on ice, but also many other injuries occur, such as dislocated hips, dislocated shoulders, and broken ankles.

[Walking-Working Surfaces \(General Industry\) Online Course \[E\]](#)

One of the ten most-cited serious OSHA general industry violations is part of the Walking-Working Surfaces regulations. Violations of 29 CFR 1910.23(c)(1) Open-Sided Floors accounted for 638 OSHA citations in FY 2005. In addition, slips, trips, and falls cause the majority of all general industry accidents and 15% of all accidental deaths. This course covers the OSHA Walking-Working Surfaces standards for General Industry. This includes information on general safety requirements, protection from holes in the floor and walls, ladder safety, and scaffold safety.

[Warehouse Safety Interactive Training \[E,S\] \[2015\]](#)

Atlantic's Warehouse Safety video Program helps employees to stay safe by identifying the specific hazards they can encounter while working in a warehouse, and providing them with the practical procedures that they can use to avoid them.

[Warehouse Safety: The Basics Interactive Training \[E,S\] \[2019\]](#)

[Water and Sewer Treatment Plant Safety Interactive Training \[E\] \[2006\]](#)

Treatment plants can be hazardous even though they are usually nice, clean places to work. Working with and around pumps, electricity, laboratories, and chemicals require special training. This video explains the special safety concerns of operators, technicians, and maintenance personnel.

[Welding and Cutting Online Course \[E\]](#)

Welding and cutting are dangerous operations that require certain safety precautions. To help keep the workplace safe, OSHA provides some general safety guidelines. In addition to the general guidelines, there are some additional safety rules that must be followed for each specific type of welding and cutting - namely, gas welding and cutting, arc welding and cutting, and resistance welding. All of these requirements are covered in this course.

[Welding Safety Interactive Training \[E,S\] \[2017\]](#)

Atlantic Training's Welding Safety video Program reminds employees that there are indeed a number of hazards associated with welding, and provides the information that they need to work safely when involved with welding operations.

[Wellness & Fitness Training Program Interactive Training \[E,S\] \[2021\]](#)

Atlantic's Wellness and Fitness video Program shows employees how small changes in lifestyles can produce big benefits. While wellness is a gradual process, eliminating negative lifestyle factors can help keep employees healthy.

[What Would You Say? - French Online Interactive Training \[E,S\]](#)

We all occasionally witness unsafe behavior, but talking with our coworkers about safety can be difficult. We don't want to hurt feelings or make people mad, but we also don't want anyone to get hurt. This helpful video teaches us to effectively communicate with co-workers when we see them behaving unsafely.

[WHMIS & the GHS Employee Training - Canada Interactive Online Training \[E\]](#)

WHMIS helps ensure quality and consistency in the classification and labeling of all chemicals, which improves an employee's ability to quickly understand critical safety information. This program is designed to help employees understand the three key elements of WHMIS: Hazard Classification, container labeling, and Safety Data Sheets.

[Winter Weather: Employee Safety Interactive Online Training \[E,S\] \[2022\]](#)

In this training, you will learn how to protect yourself from cold-related hazards through the appropriate use of clothing and personal protective equipment. We will also explore different scenarios where winter weather can be particularly fatal " at work, on the way to and from work, and at home. Our training will conclude with tips on building your own cold-weather preparation and first-aid kits to ensure you are ready for the most common effects of cold exposure " along with general tips for dealing with cold stress in the workplace.

[Work Zone Safety Interactive Training \[E,S\] \[2020\]](#)

Atlantic's new "Work Zone Safety" training products discuss the hazards that are associated with performing roadway construction and maintenance, and the equipment and safe work practices that employees can use to avoid them.

[Working From Home Interactive Training \[E\] \[2020\]](#)

Working from home might look like a pretty easy way to make a living, until you have to try it out for yourself. The COVID-19 quarantine has shown everyone that working from home can present some serious challenges.

Atlantic's new "Working From Home" discusses these challenges and what people can do to meet them.

[Working With Benzene Interactive Training \[E\] \[2005\]](#)

The health effects of any toxic substance are related to the amount of exposure, also known as a dose. The greater the dose the more severe the effects. Some chemicals can cause toxicity at very low doses. Parts per million (PPM) is a familiar term to anyone working with chemicals and toxic materials. It is important to understand how very small amounts of toxicity are measured. This program explains the various measurements of contaminants and the hazards of Benzene with emphasis on safety.

[Workplace Culture: Building Effective Teams Interactive Online Training \[E,S\] \[2023\]](#)

Teamwork is defined as more than one person working together toward a shared goal. In its basic form, teamwork doesn't actually require fun, happiness, mutual respect, or any of the positives that form what we think of as an ideal "team." This training is built on the assumption that you care about building a culture of positive teamwork, where those aspects of being on a team are valued. We will discuss the characteristics of effective teams, the benefits of building a culture of working together, and the challenges faced by workplace teams. You will also learn some key strategies for nurturing teamwork â€" including what teamwork looks like in a digital world.

[Workplace Culture: Positivity in the Workplace for Corporations Interactive Online Training \[E,S\] \[2022\]](#)

"The Power of Positive Thinking" â€" have you heard this phrase before? Everyone generally agrees on the goal of seeking or maintaining personal happiness. We often are also concerned about the well-being of others. In pursuit of this happiness, we might consider work as simply an obstacle or annoyance. Taking a positive approach to the workplace allows us to extend this pursuit to our careers and professional relationships. According to the U.S. Bureau of Labor Statistics, on average we work more than most typical household and leisure activities combined. In other words, we typically spend more time interacting at work than we do with family or friends.

[Workplace Culture: Positivity in the Workplace Interactive Online Training \[E,S\] \[2022\]](#)

"The Power of Positive Thinking" â€" have you heard this phrase before? Everyone generally agrees on the goal of seeking or maintaining personal happiness. We often are also concerned about the well-being of others. In pursuit of this happiness, we might consider work as simply an obstacle or annoyance. Taking a positive approach to the workplace allows us to extend this pursuit to our careers and professional relationships. According to the U.S. Bureau of Labor Statistics, on average we work more than most typical household and leisure activities combined. In other words, we typically spend more time interacting at work than we do with family or friends.

[Workplace Discrimination for Employees Interactive Training \[E,S\] \[2018\]](#)

Atlantic's "Preventing Workplace Discrimination... for Employees" products discuss different types of discriminatory behavior, its causes and what employees can do to prevent it in their workplace.

[Workplace Discrimination for Managers and Supervisors Interactive Training \[E,S\] \[2018\]](#)

Atlantic's "Preventing Workplace Discrimination... for Managers and Supervisors" products discuss different types of discriminatory behavior, the laws, and policies that have been established to fight it, and what managers and supervisors can do to prevent it in their department.

[Workplace Dynamics: Bullying and Boundaries Interactive Online Training \[E,S\] \[2022\]](#)

Federal law entitles all employees to a safe workplace. These protections extend to preventing physical harm, discrimination, and even death. Have you ever experienced bullying or harassment? Have you witnessed or intervened in these situations? How did you feel?

[Workplace Harassment in Industrial Facilities Interactive Training \[E,S\] \[2019\]](#)

Atlantic's Workplace Harassment in Industrial Facilities video Program is to discuss the various types of harassment that are found in the workplace, how they can affect an employee's work situation and what employees themselves can do to help prevent workplace harassment.

[Workplace Harassment in the Office Interactive Training \[E,S\] \[2019\]](#)

Atlantic's Workplace Harassment in the Office video Program is to discuss the various types of harassment that are found in the workplace, how they can affect an employee's work situation and what employees themselves can do to help prevent workplace harassment.

[Workplace Safety: Using Ladders Safely Online Interactive Training \[E,S\] \[2023\]](#)

Ensuring you pick the right ladder based on use, performance capacity, and material is an integral part of ladder safety. Knowing when to use, or avoid, a specific type of ladder will ensure the climber doesn't exceed weight capacity, overreach, or choose a conductive material when working with electricity or during inclement weather. While the extension ladder and wooden step ladders are common, there may be other options available to use. Check the performance rating, and, if you're unsure which ladder is best or safest to use for a job, ask your supervisor to help.

Whether using a portable or fixed ladder, safe ascension and descension are paramount to reducing your risk of falling or injuring someone else. Ensure your shoes are non-slip, and keep your hands clear so that you can successfully use the three point-of-contact technique. Ladders are a common tool across industries, and understanding the necessary precautions and regulations will help keep you and your coworker safe.

[Workplace Stress Interactive Training \[E,S\] \[2021\]](#)

Atlantic's Workplace Stress video Program helps employees identify potentially stressful situations and learn how to cope with them.

[Workplace Violence Facts and Prevention Interactive Training \[E,S\] \[2018\]](#)

Workplace violence costs businesses more than \$100 billion dollars in lost revenue annually. At least two million workers report being assaulted on the job every year. And one in ten fatalities that occur in the workplace is a homicide. But workplace violence can be prevented.

[Workplace Violence in Construction Environments Interactive Online Training \[E\] \[2022\]](#)

Some people believe that a "certain amount of conflict" on the job is normal. But too often, arguments can escalate into insults, challenges and threats. Sometimes these conflicts can even become physical, and lead to serious injuries... even death. All of these situations are examples of "workplace violence"... and they can happen in any work environment. If they do, it can be stressful, bad for morale and downright dangerous. So how much conflict is too much? And where do we draw the line?

[Workplace Violence in Healthcare Facilities Interactive Training \[E,S\] \[2017\]](#)

Workplace violence is a serious problem in hospitals, urgent care clinics, nursing homes, doctors' offices and other healthcare facilities across the country. Thousands of assaults occur every week; employees suffer physical and emotional trauma... some even die.

[Workplace Violence Interactive Online Training \[E\] \[2022\]](#)

Workplace violence costs businesses more than \$100 billion dollars in lost revenue annually. At least two million workers report being assaulted on the job every year. And one in ten fatalities that occur in the workplace is a homicide. But workplace violence can be prevented.
